

Unaudited Semi-Annual Report – 31 March 2023

# JPMorgan Funds

Unit Trust Range

These reports do not constitute an offer of units in any funds forming the subject matter of this document. Subscriptions are only valid if made on the basis of the current explanatory memoranda (or equivalent), supplemented by the most recent financial reports, if available.

**Notice to U.K. residents:** This document is only directed to persons believed by JPMorgan Asset Management (U.K.) Limited to be investment professionals as defined in Article 19 of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, high net worth companies, unincorporated associations and other persons as defined in Article 49 of that Order and to others to whom it can lawfully be distributed or given, inside the United Kingdom, without approval by an authorised person. Persons who do not have professional experience in matters relating to investments should not rely on it and any other person should not act on such information.

This document is issued in the U.K. by JPMorgan Asset Management (U.K.) Limited and has been approved solely for the purposes of section 21(2)(b) of the Financial Services and Markets Act 2000 by JPMorgan Asset Management (U.K.) Limited which is authorised and regulated in the U.K. by the Financial Conduct Authority. Registered in England No. 01161446. Registered address: 25 Bank Street, Canary Wharf, London, UK, E14 5JP.

Although JPMorgan Asset Management (Europe) S.à r.l., under certain administrative services agreements, provides services to the funds covered in this document, the funds are not subject to the laws of Luxembourg nor are they subject to supervision by any supervisory authority in Luxembourg.

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan ASEAN Fund (the "Fund") was established under a Trust Deed dated 7 July 1983, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to enable investors to participate in a managed portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities with significant assets in, or significant earnings derived from one or more of the countries comprising the Association of South East Asian Nations.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Asia Equity Dividend Fund (the "Fund") was established under a Trust Deed dated 6 May 2011, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to provide income and long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of companies in the Asia Pacific region (excluding Japan) that the Investment Manager expects to pay dividends. The Fund's holding of these equity securities will be selected based on historical records and company announcements on dividends, in addition to their potential for long-term capital appreciation.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

(c) Foreign currency translation

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Asia Growth Fund (the "Fund") was established under a Trust Deed dated 11 May 2007, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation by investing at least 70% of its total net asset value in equity securities of companies whose predominant business will benefit from, or is related to, the growth in Asian economies.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Transaction costs	10,726	20,649
Interest expense	355	229
	<u>          </u>	<u>          </u>

**6 Distribution**

No distribution was made during the period (31 March 2022: nil).

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 2 December 1991 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Asian Smaller Companies Fund (the "Fund") was established under a Trust Deed dated 2 December 1991, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in the equity securities of small to medium sized companies in the Asia-Pacific region, excluding Japan and Australia except the Manager may, from time to time, invest in Japan and Australia when appropriate investment opportunities arise.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

1.10.2022 to 31.3.2023

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Asian Total Return Bond Fund (the "Fund") was established under a Trust Deed dated 30 November 2004, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve a competitive total return, consisting of capital growth and regular interest income, through an actively managed portfolio investing primarily (i.e. at least 70% of its total net asset value) in Asian bonds and other debt securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivative based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Open futures and swap contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

(c) Foreign currency translation

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

(d) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Total distribution to holders of redeemable units

(33,281,863) (60,360,904)

## **7 Taxation**

Overseas tax was withheld or paid on certain interest income received and capital gains derived during the periods ended 31 March 2023 and 2022.

### China Taxation

The Fund held certain investment in PRC securities. Under PRC tax law, enterprise income tax of 10% is payable on dividends and interests derived by foreign investors from China, except for Government bond interest which is specifically tax exempt and bond interest derived from 7 November 2018 to 31 December 2025 by foreign institutional investors from bonds traded in PRC local bond market which is temporarily exempt. The paying entity in the PRC will be responsible for withholding such tax when making a payment. Full PRC tax provision of 10% is made for PRC sourced dividends and interests not subject to specific tax exemption where tax has not yet been withheld by the payors.

Under PRC tax law, enterprise income tax of 10% would normally be payable on gains realized from the sale of PRC securities by foreign investors. However, currently gains from disposal of China A-shares (including those on China Connect) are subject to temporary exemptions from enterprise income tax. Full PRC tax provision of 10% is made for gains from disposal of certain PRC securities that are currently not specifically exempt from enterprise income tax.

### Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore, it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Australia Fund (the "Fund") was established under a Trust Deed dated 5 June 1981, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) of equity securities of companies listed on the Australian Securities Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

**(c) Securities lending and borrowing**

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**1.10.2022 to 31.3.2023

The notes on pages 102 to 105 form part of these financial statements.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan China A-Share Opportunities Fund (the "Fund") was established under a Trust Deed dated 2 July 2014, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to achieve long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities issued in the PRC including but not limited to China A-Shares listed on the PRC stock exchanges (e.g. Shanghai Stock Exchange, Shenzhen Stock Exchange and Beijing Stock Exchange). The Fund will invest in PRC securities via the Qualified Foreign Investor ("QFI") status of the Investment Manager. For the investment in China A-Shares, the Fund may also invest and have direct access to certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (collectively, the "China Connect") and/or other similar programs as approved by the relevant regulators from time to time. The Fund may invest 30% or more of its total net asset value in stocks listed on the ChiNext Board of the Shenzhen Stock Exchange, the Science and Technology Innovation Board of the Shanghai Stock Exchange and/or the Beijing Stock Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

#### (c) Foreign currency translation

##### *Functional and presentation currency*

The Fund has adopted Renminbi as its functional and presentation currency.

##### *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(d) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**(e) Taxation**

Tax provision made predominantly relates to enterprise income tax arising from investment income realized from trading PRC securities.

Deferred income tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

1.10.2022 to 31.3.2023

	HKD Class (acc) Units	RMB Class (acc) Units	USD Class (acc) Units
Number of units in issue:

Net assets attributable to holders of redeemable units (per unit)	<u>18.84</u>	<u>21.58</u>	<u>14.63</u>

**4 Net gains/(losses) on investments and derivatives**

	1.10.2022 to 31.3.2023 CNY	1.10.2021 to 31.3.2022 CNY
Change in unrealized gains/losses in value of investments and derivatives	205,772,456	(515,097,518)
Realized (losses)/gains on sale of investments and derivatives	<u>(71,852,993)</u>	<u>86,879,774</u>
	<u>133,919,463</u>	<u>(428,217,744)</u>

**5 Transactions with the Trustee, the Manager and their Connected Persons**

(a) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 CNY	1.10.2021 to 31.3.2022 CNY
Management fee	16,728,215	20,393,632
Registrar's fee	88,851	107,907
Valuation fee	56,748	51,279
Transaction costs	55,637	112,528
Safe custody and bank charges	<u>13,026</u>	<u>10,837</u>

(b) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 CNY	1.10.2021 to 31.3.2022 CNY
Safe custody and bank charges	310,089	403,645
Trustee's fee	301,212	353,612
Transaction costs	218,990	255,313
Interest expense	146,024	66,487
	<u>                    </u>	<u>                    </u>

**6 Taxation**

Tax provision made predominantly relates to enterprise income tax arising from investment income realized from trading PRC securities.

The amount of taxation charged to the Statement of Comprehensive Income represents:

	1.10.2022 to 31.3.2023 CNY	1.10.2021 to 31.3.2022 CNY
Withholding tax		
- Dividend and interest income	(409,768)	(262,753)
Taxation	<u>(409,768)</u>	<u>(262,753)</u>

The movement in tax payable is as follows:

	1.10.2022 to 31.3.2023 CNY	1.10.2021 to 30.9.2022 CNY
At the beginning of the period/year	-	-
Taxation charged to the Statement of Comprehensive Income	409,768	2,951,831
Tax paid	(409,768)	(2,951,831)
	<u>                    </u>	<u>                    </u>
At the end of the period/year	<u>                    </u>	<u>                    </u>

Provisioning Policy of the Fund

China Taxation

The Fund held A-shares of PRC listed companies through the QFI status of the Investment Manager and China Connect and certain investment in other PRC securities. Under PRC tax law, enterprise income tax of 10% is payable on dividends and interests derived by foreign investors from China, except for Government bond interest which is specifically tax exempt and bond interest derived from 7 November 2018 to 31 December 2025 by foreign institutional investors from bonds traded in PRC local bond market which is temporarily exempt. The paying entity in the PRC will be responsible for withholding such tax when making a payment. Full PRC tax provision of 10% is made for PRC sourced dividends and interests not subject to specific tax exemption where tax has not yet been withheld by the payors.

Under PRC tax law, enterprise income tax of 10% would normally be payable on gains realized from the sale of PRC securities by foreign investors. However, currently gains from disposal of China A-shares (including those on China Connect and through QFI) are subject to temporary exemptions from enterprise income tax. Full PRC tax provision of 10% is made for gains from disposal of certain PRC securities that are currently not specifically exempt from enterprise income tax.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

**7 Distribution**

No distribution was made during the period (31 March 2022: nil).

## Notes to the Financial Statements

### 1 The Fund

JPMorgan China Income Fund (the "Fund") was established under a Trust Deed dated 21 May 2009, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with income and long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in (a) equity securities of companies which are based in, listed on any stock exchange of, or operate principally in the PRC and that the Investment Manager expects to pay dividends and (b) Chinese debt securities issued and/or distributed in or outside the PRC. The Fund may invest up to 50% of its total net asset value in onshore PRC securities via the Qualified Foreign Investor ("QFI") status of the Investment Manager. The Fund may invest up to 100% of its total net asset value in certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (collectively, the "China Connect") and/or other similar programs as approved by the relevant regulators from time to time. The Fund may invest 30% or more of its total net asset value in stocks listed on the ChiNext Board of the Shenzhen Stock Exchange, the Science and Technology Innovation Board of the Shanghai Stock Exchange and/or the Beijing Stock Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

**(c) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(d) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**(e) Taxation**

Tax provision made predominantly relates to enterprise income tax arising from investment income realized from trading PRC securities.

Deferred income tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

Total distribution to holders of redeemable units					(7,549,565)	(10,434,092)

**7 Taxation**

Taxation predominantly refers to enterprise income tax arising from investment income realized from trading PRC securities.

The amount of taxation charged to the Statement of Comprehensive Income represents:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Withholding tax		
- Dividend and interest income	(89,152)	(34,603)
Capital gains tax	45,386	-
	(43,766)	(34,603)
Deferred tax liabilities	1,038	(198)
Taxation	<u>(42,728)</u>	<u>(34,801)</u>

The movement in deferred tax liabilities is as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 30.9.2022 US\$
At the beginning of the period/year	2,322	10,560
Deferred tax liabilities charged to the Statement of Comprehensive Income	(1,038)	(8,238)
At the end of the period/year	<u>1,284</u>	<u>2,322</u>

The movement in tax payable is as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 30.9.2022 US\$
At the beginning of the period/year	45,390	49,808
Taxation charged to the Statement of Comprehensive Income	43,766	755,366
Tax paid	(89,155)	(759,784)
At the end of the period/year	<u>1</u>	<u>45,390</u>

Provisioning Policy of the Fund

China Taxation

The Fund held A-shares of PRC listed companies through the QFI status of the Investment Manager and China Connect and certain investment in other PRC securities. Under PRC tax law, enterprise income tax of 10% is payable on dividends and interests derived by foreign investors from China, except for Government bond interest which is specifically tax exempt and bond interest derived from 7 November 2018 to 31 December 2025 by foreign institutional investors from bonds traded in PRC local bond market which is temporarily exempt. The paying entity in the PRC will be responsible for withholding such tax when making a payment. Full PRC tax provision of 10% is made for PRC sourced dividends and interests not subject to specific tax exemption where tax has not yet been withheld by the payors.

Under PRC tax law, enterprise income tax of 10% would normally be payable on gains realized from the sale of PRC securities by foreign investors. However, currently gains from disposal of China A-shares (including those on China Connect and through QFI) are subject to temporary exemptions from enterprise income tax. Full PRC tax provision of 10% is made for gains from disposal of certain PRC securities that are currently not specifically exempt from enterprise income tax.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 14 June 2006 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan China Pioneer A-Share Fund (the "Fund") was established under a Trust Deed dated 14 June 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to achieve long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in PRC equity securities, including but not limited to China A-Shares listed on the PRC stock exchanges (e.g. Shanghai Stock Exchange, Shenzhen Stock Exchange and Beijing Stock Exchange). The Fund will invest in PRC securities via the Qualified Foreign Investor ("QFI") status of the Investment Manager. For the investment in China A-Shares, the Fund may also invest and have direct access to certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (collectively, the "China Connect") and/or other similar programs as approved by the relevant regulators from time to time. The Fund may invest 30% or more of its total net asset value in stocks listed on the ChiNext Board of the Shenzhen Stock Exchange, the Science and Technology Innovation Board of the Shanghai Stock Exchange and/or the Beijing Stock Exchange.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

#### (c) Foreign currency translation

##### *Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

##### *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(d) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**(e) Taxation**

Tax provision made predominantly relates to enterprise income tax arising from investment income realized from trading PRC securities.

Deferred income tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

1.10.2022 to 31.3.2023

	USD Class (acc) Units	USD Class C (acc) Units

Net assets attributable to holders of redeemable units (per unit)	<u>52.23</u>	<u>6.95</u>

**4 Net gains/(losses) on investments and derivatives**

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Change in unrealized gains/losses in value of investments and derivatives	149,856,739	(329,149,638)
Realized (losses)/gains on sale of investments and derivatives	<u>(45,758,238)</u>	<u>98,786,942</u>
	<u>104,098,501</u>	<u>(230,362,696)</u>

**5 Transactions with the Trustee, the Manager and their Connected Persons**

- (a) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Management fee	8,852,513	12,332,464
Registrar's fee	35,039	56,290
Transaction costs	30,414	78,725
Valuation fee	8,120	8,120
Safe custody and bank charges	<u>3,263</u>	<u>1,341</u>

- (b) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Interest expense	215,707	63,021
Safe custody and bank charges	185,011	270,273
Trustee's fee	135,711	185,418
Transaction costs	<u>68,102</u>	<u>97,375</u>

**6 Taxation**

Tax provision made predominantly relates to enterprise income tax arising from investment income realized from trading PRC securities.

The amount of taxation charged to the Statement of Comprehensive Income represents:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Withholding tax		
- Dividend and interest income	(222,686)	(149,583)
Taxation	<u>(222,686)</u>	<u>(149,583)</u>

The movement in tax payable is as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 30.9.2022 US\$
At the beginning of the period/year	-	-
Taxation charged to the Statement of Comprehensive Income	222,686	1,633,898
Tax paid	<u>(222,686)</u>	<u>(1,633,898)</u>
At the end of the period/year	<u>-</u>	<u>-</u>

Provisioning Policy of the FundChina Taxation

The Fund held A-shares of PRC listed companies through the QFI status of the Investment Manager and China Connect and certain investment in other PRC securities. Under PRC tax law, enterprise income tax of 10% is payable on dividends and interests derived by foreign investors from China, except for Government bond interest which is specifically tax exempt and bond interest derived from 7 November 2018 to 31 December 2025 by foreign institutional investors from bonds traded in PRC local bond market which is temporarily exempt. The paying entity in the PRC will be responsible for withholding such tax when making a payment. Full PRC tax provision of 10% is made for PRC sourced dividends and interests not subject to specific tax exemption where tax has not yet been withheld by the payers.

Under PRC tax law, enterprise income tax of 10% would normally be payable on gains realized from the sale of PRC securities by foreign investors. However, currently gains from disposal of China A-shares (including those on China Connect and through QFI) are subject to temporary exemptions from enterprise income tax. Full PRC tax provision of 10% is made for gains from disposal of certain PRC securities that are currently not specifically exempt from enterprise income tax.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

**7 Distribution**

No distribution was made during the period (31 March 2022: nil).

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Europe High Yield Bond Fund (the "Fund") was established under a Trust Deed dated 10 March 2016, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to achieve a return in excess of European bond markets by investing at least 70% of its total net asset value in European and non-European below investment grade debt securities denominated in European currencies.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

#### (c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the

investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted Euro as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Europe Strategic Dividend Fund (the "Fund") was established under a Trust Deed dated 10 March 2016, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to provide income and long-term capital growth by investing at least 70% of its total net asset value in equity securities of companies which are based in, listed on stock exchange of or operate principally in Europe and are expected to pay dividends.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Open futures are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

#### (c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value.

Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation**

Functional and presentation currency

The Fund has adopted Euro as its functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

The notes on pages 171 to 173 form part of these financial statements.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Evergreen Fund (the "Fund") was established under a Trust Deed dated 19 January 2004, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment policy of the Fund is to seek to produce a competitive total return in different market conditions. The Fund seeks to achieve this by investing primarily (at least 90% of its total net asset value) in a professionally managed portfolio of interests in collective investment schemes (including exchange-traded funds) managed by the Manager, its connected parties or external parties. By investing in developed and emerging markets across a range of collective investment schemes, which may embrace the full spectrum of the risk return trade off from low to high risk, the Fund seeks to allocate across equity, fixed income and money market instruments depending on market conditions and opportunities, with no prescribed limits.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

##### *Structured entities*

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

**(c) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(d) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

	1.10.2022 to 31.3.2023 Units	1.10.2021 to 31.3.2022 Units
Number of units in issue:		
At the beginning of the period	2,010,603.840	1,805,984.040
Total allotments	148,121.741	303,425.423
Total redemptions	(152,900.621)	(101,832.274)
At the end of the period	<u>2,005,824.960</u>	<u>2,007,577.189</u>
	31.3.2023 US\$	30.9.2022 US\$
Net assets attributable to holders of redeemable units	<u>53,573,662</u>	<u>49,194,879</u>
Net assets attributable to holders of redeemable units (per unit)	<u>26.71</u>	<u>24.47</u>

**4 Net gains/(losses) on investments and derivatives**

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Change in unrealized gains/losses in value of investments and derivatives	5,727,838	(4,317,971)
Realized (losses)/gains on sale of investments and derivatives	(1,088,584)	2,784,832
	<u>4,639,254</u>	<u>(1,533,139)</u>

**5 Transactions with the Trustee, the Manager and their Connected Persons**

(a) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Management fee	129,289	141,692
Valuation fee	8,400	8,330
Registrar's fee	7,857	9,118
Safe custody and bank charges	2,542	2,333
	<u>          </u>	<u>          </u>

(b) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Trustee's fee	7,757	8,502
Safe custody and bank charges	4,986	3,231
Transaction costs	660	975
	<u>          </u>	<u>          </u>

**6 Distribution**

No distribution was made during the period (31 March 2022: nil).

**Investment Portfolio**

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Future Transition Multi-Asset Fund (the "Fund") was established under a Trust Deed dated 21 June 2021, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide medium to long-term moderate capital growth by investing in a diversified portfolio of securities globally, including but not limited to, debt and equity securities whose issuers may benefit from, or contribute to, the transition towards the future world.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the period ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

*Structured entities*

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

**(c) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(d) Formation costs**

Formation costs are recognized as an expense in the period in which they are incurred.

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**Fair value adjustment of units of the Fund

As stated in Note 2(e), units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to the holders of redeemable units and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund. The redemption amount is determined based on the net assets attributable to holders of redeemable units calculated in accordance with the provisions of the Trust Deed ("Trust Deed NAV").

	31.3.2023 US\$	30.9.2022 US\$
Net assets attributable to holders of redeemable units (In accordance with HKFRS)	61,489,501	61,614,872
Fair value adjustment of units of the Fund:		
Unamortized formation costs as at the end of the period [Note 3(a)]	16,403	22,066
Net assets attributable to holders of redeemable units (In accordance with the Trust Deed)	<u>61,505,904</u>	<u>61,636,938</u>

Note:

- (a) In accordance with the provisions of the Trust Deed, the formation costs (including legal, accounting, and other professional fees and expenses) or costs incidental to the establishment of the Fund will be paid out of the assets of the Fund and amortized over the first three financial years. However, as stated in Note 2(d), the accounting policy of the Fund for the purpose of compliance with HKAS 38 "Intangible Assets" and for reporting purposes is to expense the expenditure incurred in the formation of the Fund in the period in which they arose.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Global Bond Fund (the "Fund") was established under a Trust Deed dated 30 April 1979, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to aim to achieve a return in excess of global bond markets by investing primarily (i.e. at least 80% of its total net asset value) in global investment grade debt securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures and swap contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

*Structured entities*

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 23 November 1989 to 30 September 2010.

The notes on pages 214 to 217 form part of these financial statements.

**Notes to the Financial Statements****1 The Fund**

JPMorgan India Fund (the "Fund") was established under a Trust Deed dated 23 November 1989, as amended (the "Trust Deed") and is governed by the laws of the Republic of Mauritius. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities linked to the Indian economy. These include, but are not restricted to, securities traded on the stock exchanges of India and the rest of the Indian sub-continent including Pakistan, Bangladesh and Sri Lanka.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

**2 Summary of significant accounting policies****(a) Accounting policies of interim financial statements**

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

**(b) Investments and derivatives***Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**1.10.2022 to 31.3.2023

## Notes to the Financial Statements

### 1 The Fund

JPMorgan India Smaller Companies Fund (the "Fund") was established under a Trust Deed dated 13 April 2006, as amended (the "Trust Deed") and is governed by the laws of the Republic of Mauritius. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of small to medium-sized companies in India.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

#### (c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

Safe custody and bank charges	1,955	2,228
Transaction costs	1,378	4,171

(b) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Mauritius) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Safe custody and bank charges	29,859	33,913
Trustee's fee	23,133	24,706
Transaction costs	6,749	3,325
Interest expense	575	1,107

**6 Distribution**

No distribution was made during the period (31 March 2022: nil).

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 19 September 2006 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Indonesia Fund (the "Fund") was established under a Trust Deed dated 19 September 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities linked to the Indonesian economy. These include, but are not restricted to, securities traded on the stock exchanges of Indonesia.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

#### (c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

The notes on pages 240 to 243 form part of these financial statements.

**Notes to the Financial Statements****1 The Fund**

JPMorgan Japan (Yen) Fund (the "Fund") was established under a Trust Deed dated 1 August 1969, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through investment primarily (i.e. at least 70% of its total net asset value) in Japanese equity securities and other equity securities whose performance is linked to that of the Japanese economy.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

**2 Summary of significant accounting policies****(a) Accounting policies of interim financial statements**

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

**(b) Investments and derivatives***Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

**(c) Securities lending and borrowing**

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted Japanese Yen as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

1.10.2022 to 31.3.2023

	<u>3,344,227</u>	<u>(7,203,925)</u>

**5 Transactions with the Trustee, the Manager and their Connected Persons**

(a) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 JPY'000	1.10.2021 to 31.3.2022 JPY'000
Management fee	335,782	349,827
Registrar's fee	9,036	10,617
Safe custody and bank charges	1,540	909
Valuation fee	1,112	926
Transaction costs	134	152
	<u>          </u>	<u>          </u>

(b) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 JPY'000	1.10.2021 to 31.3.2022 JPY'000
Trustee's fee	6,310	6,513
Safe custody and bank charges	4,241	6,131
Transaction costs	-	495
Interest expense	-	112
	<u>          </u>	<u>          </u>

**6 Distribution**

No distribution was made during the period (31 March 2022: nil).

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 11 December 1991 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Korea Fund (the "Fund") was established under a Trust Deed dated 11 December 1991, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through investment primarily (i.e. at least 70% of its total net asset value) in companies whose shares are listed on the Korea Stock Exchange or traded on the Korean over-the-counter market.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

#### (c) Securities lending and borrowing

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

1.10.2022 to 31.3.2023

	USD Class (acc) Units
Number of units in issue:	
At the beginning of the period	2,687,873.100
Total allotments	519,809.993

	<u><u>143,424,110</u></u>

Net assets attributable to holders of redeemable units (per unit)	53.36
	<u><u>53.36</u></u>

**4 Net gains/(losses) on investments**

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Change in unrealized gains/losses in value of investments	51,453,952	(24,241,450)
Realized (losses)/gains on sale of investments	(14,535,813)	8,015,495
	<u><u>36,918,139</u></u>	<u><u>(16,225,955)</u></u>

**5 Transactions with the Trustee, the Manager and their Connected Persons**

(a) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Management fee	1,307,852	1,791,832
Registrar's fee	47,470	62,205
Valuation fee	8,330	8,190
Safe custody and bank charges	4,972	1,895
Transaction costs	1,497	951
	<u><u>1,368,111</u></u>	<u><u>1,964,073</u></u>

- (b) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Trustee's fee	31,035	39,106
Safe custody and bank charges	25,143	41,895
Transaction costs	12,799	12,096
Interest expense	404	-
	<u>          </u>	<u>          </u>

## 6 Distribution

No distribution was made during the period (31 March 2022: nil).

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 12 December 1989 to 30 September 2010.

The notes on pages 257 to 260 form part of these financial statements.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Malaysia Fund (the "Fund") was established under a Trust Deed dated 12 December 1989, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities linked to the Malaysian economy. These include, but are not restricted to, securities listed on the Kuala Lumpur Stock Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

#### (c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**1.10.2022 to 31.3.2023

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Money Fund (the "Fund") was established under a Trust Deed dated 13 June 1983, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The Fund currently comprises the HK\$ portfolio ("Portfolio").

The investment objective of the Portfolio is to provide an efficient vehicle for holding liquid assets currently denominated in the currency of Hong Kong by investing in short-term deposits and high quality money market instruments. The Manager will aim to secure long-term capital growth.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments

##### *Classification*

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments are accounted for on the trade date basis. Investments are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments are recognized in the Statement of Comprehensive Income. Investments are derecognized when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

#### (c) Foreign currency translation

##### *Functional and presentation currency*

The Fund has adopted Hong Kong dollar as its functional and presentation currency.

##### *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments".

**(d) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

**3 Net assets attributable to holders of redeemable units and number of units in issue**

Fair value adjustment of units of the Fund

As at 31 March 2023, the Fund had HK\$1,587,694,153 (30 September 2022: HK\$1,768,765,153) of puttable financial instruments, represented by the net assets attributable to the holders of redeemable units (or "net asset value" or "net assets" or "NAV"), classified as equity. The redemption amount is determined based on the net assets attributable to holders of redeemable units calculated in accordance with the provisions of the Trust Deed ("Trust Deed NAV").

	31.3.2023 HK\$	30.9.2022 HK\$
Net assets attributable to holders of redeemable units (In accordance with HKFRS)	1,587,694,153	1,768,765,153
Fair value adjustment of units of the Fund:		
Difference in valuation of investments [Note 3(a)]	(33,435)	564,667
Net assets attributable to holders of redeemable units (In accordance with the Trust Deed)	<u>1,587,660,718</u>	<u>1,769,329,820</u>

Note:

- (a) In accordance with the Trust Deed, amortized cost method may be used in respect of certain debt instruments specified in the Explanatory Memorandum. In accordance with the Explanatory Memorandum, debt investments of the Fund with a residual maturity exceeding 90 days will be valued at their latest market quoted price on the relevant dealing day. Debt investments of the Fund with a residual maturity of 90 days or less at the time of purchase will be valued using the amortized cost method, whereby the investments are valued at cost and adjusted to account for the amortization of premiums or discounts over the remaining life of such debt investments. For debt investments being held by the Fund and turning to have a residual maturity of 90 days, such debt investments will begin to be valued using the amortized cost method, whereby their closing price on the dealing day immediately before the investments turned 90 days to maturity will be used as the basis and adjusted for the amortization of premiums or discounts over the investments' remaining life. However, as stated in Note 2(b), the accounting policy of the Fund for the purpose of compliance with HKFRS 9 "Financial Instruments" and for reporting purposes is to fair value debt securities and money market based on quoted prices inclusive of accrued interest.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Multi Balanced Fund (the "Fund") was established under a Trust Deed dated 23 February 2017, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide regular income by investing primarily in a conservatively constructed portfolio of income generating securities globally, including but not limited to, equities (including preferred shares), senior secured bonds, high yield bonds, investment grade bonds, below investment grade bonds, emerging market bonds, convertible bonds, asset backed securities (including asset backed commercial papers) and mortgage backed securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures and swap contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

*Structured entities*

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

**(c) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(d) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Multi Income Fund (the "Fund") was established under a Trust Deed dated 24 June 2011, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to maximize the income return primarily through investing in a diversified portfolio of income producing equities, bonds and other securities. In addition, the Fund aims to provide medium to long-term moderate capital growth. The Manager will seek to achieve these objectives by active asset allocation to, and within, different asset classes and geographies. The asset classes include but are not limited to investment grade bonds, below investment grade bonds, high yield bonds, emerging market bonds, convertible bonds, asset backed securities (including asset backed commercial papers), mortgage backed securities, real estate investment trusts ("REITs") and equities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Debt securities and money market are fair valued based on quoted prices inclusive of accrued interest.

Investments in collective investment schemes are stated at fair value based on the net asset value per unit of the respective funds as determined by the administrators of the relevant funds or stated at last traded prices if the collective investment schemes are listed or traded on an exchange.

Open futures and swap contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

#### *Structured entities*

The Fund considers all of its investments in other funds ("Investee Funds") to be investments in unconsolidated structured entities. The Fund invests in Investee Funds whose objectives range from achieving medium to long-term capital growth.

### **(c) Foreign currency translation**

#### *Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

#### *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

### **(d) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Total distribution to holders of redeemable units

(137,025,782)

(129,702,845)

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Pacific Securities Fund (the "Fund") was established under a Trust Deed dated 7 April 1978, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in the securities of companies in the Asia-Pacific region, including Japan, Australia and New Zealand.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

**(c) Securities lending and borrowing**

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

1.10.2022 to 31.3.2023

	<u>99,099,639</u>	<u>(130,569,994)</u>

**5 Transactions with the Trustee, the Manager and their Connected Persons**

(a) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Management fee	4,394,220	6,648,345
Registrar's fee	57,320	73,143
Valuation fee	8,540	8,470
Safe custody and bank charges	7,546	8,940
Transaction costs	<u>2,878</u>	<u>5,746</u>

(b) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Trustee's fee	82,515	119,931
Safe custody and bank charges	62,986	102,160
Transaction costs	4,720	11,641
Interest expense	<u>4,265</u>	<u>1,759</u>

**6 Distribution**

No distribution was made during the period (31 March 2022: nil).

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 14 August 1997 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Pacific Technology Fund (the "Fund") was established under a Trust Deed dated 14 August 1997, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of securities of technology companies (including but not limited to companies related to technology, media and communication services) in the Pacific region, including Japan.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Valuation fee	<u>8,610</u>	<u>8,470</u>

(b) During the periods ended 31 March 2023 and 2022, respective amounts paid to the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	1.10.2022 to 31.3.2023 US\$	1.10.2021 to 31.3.2022 US\$
Trustee's fee	105,287	178,183
Safe custody and bank charges	167,651	174,479
Transaction costs	18,422	52,450
Interest expense	<u>10,644</u>	<u>660</u>

**6 Distribution**

No distribution was made during the period (31 March 2022: nil).

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 30 June 1987 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Philippine Fund (the "Fund") was established under a Trust Deed dated 29 July 1974, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide long-term capital growth through investment primarily (i.e. at least 70% of its total net asset value) in the equity securities of companies based or operating in the Philippines.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**

1.10.2022 to 31.3.2023

	USD Class (acc) Units	USD Class C (acc) Units
Number of units in issue:		
At the beginning of the period	363,719.662	4,083.000

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Sustainable Infrastructure Fund (the "Fund") was established under a Trust Deed dated 6 July 2005, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

With effect from 12 July 2022, the Fund has been renamed from JPMorgan Global Property Income Fund to JPMorgan Sustainable Infrastructure Fund.

Prior to 12 July 2022, the investment objective of the Fund was "to achieve a high level of current income and long-term capital appreciation primarily (i.e. at least 70% of its total net asset value) through investing in equity securities that are listed on any stock exchange and are principally engaged in or related to the property industry or which own significant property assets, and the Fund does not invest in real estate directly."

With effect from 12 July 2022, the investment objective of the Fund has been changed to "to achieve a return by investing primarily (i.e. at least 70% of its total net asset value) in equity securities globally (including listed real estate investment trusts) that are well positioned to promote the development of the infrastructure required to facilitate a sustainable and inclusive economy, whilst not significantly harming any environmental or social objectives and following good governance practices."

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation**

*Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore, it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 8 August 1989 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Thailand Fund (the "Fund") was established under a Trust Deed dated 20 July 1989, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital appreciation through a portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities of companies based or operating principally in Thailand.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

#### (c) Securities borrowing

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**1.10.2022 to 31.3.2023

USD Class (acc)

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Vietnam Opportunities Fund (the "Fund") was established under a Trust Deed dated 15 August 2006, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong (the "SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of companies either (i) domiciled or listed on a stock exchange in Vietnam, or (ii) with actual or prospective operations, assets or investments, direct or indirect, in Vietnam in an aggregate amount of not less than either US\$50 million or 10 per cent. of the gross assets of the investing company (albeit such operations, assets or investments may at the time of investment be immaterial to the financial results of such company).

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

#### (a) Accounting policies of interim financial statements

The accounting policies and methods of computation used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 30 September 2022.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

##### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the period/year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at period/year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(e) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

Cash at banks	35,841,837	33,818,406

The notes on pages 6 to 22 form part of these financial statements.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan ASEAN Fund (the "Fund") was established under a Trust Deed dated 7 July 1983, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("SFC").

The investment objective of the Fund is to enable investors to participate in a managed portfolio consisting primarily (i.e. at least 70% of its total net asset value) of equity securities with significant assets in, or significant earnings derived from one or more of the countries comprising the Association of South East Asian Nations.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

#### *Standards and amendments to existing standards effective from 1 October 2021*

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2021 that have had a material impact on the Fund.

#### *New standards, amendments and interpretations effective after 1 October 2021 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

*Transfers between levels of the fair value hierarchy*

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

**(e) Income and expense**

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

**(f) Transaction costs**

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**(g) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

#### (h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

#### (i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

#### (j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

### 3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

**4 Financial risk management****(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

**(a) Market risk****(i) Market price risk**

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2022		2021	
	Fair value of investments US\$	% of net assets	Fair value of investments US\$	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
<u>Equities</u>				
- Singapore	377,342,250	32.3	405,887,799	29.7
- Indonesia	280,440,209	24.0	281,426,075	20.6
- Thailand	249,198,989	21.3	324,320,075	23.7

	<u>1,134,467,401</u>	<u>97.0</u>	<u>1,336,805,504</u>	<u>97.8</u>
<u>Liabilities</u>				
<u>Derivatives</u>				
- Forward foreign exchange contracts	(908,516)	(0.1)	(616,681)	(0.0)
	<u>1,133,558,885</u>	<u>96.9</u>	<u>1,336,188,823</u>	<u>97.8</u>
Unlisted/Unquoted Investments				
<u>Assets</u>				
<u>Equities</u>				
- Singapore	-	-	-	-
<u>Derivatives</u>				
- Warrants	-	-	-	-
	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>
Total Unlisted/Unquoted Investments	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>
Total Investments	<u>1,133,558,885</u>	<u>96.9</u>	<u>1,336,188,823</u>	<u>97.8</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value US\$	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) US\$
As at 30 September 2022	<u>1,170,150,124</u>	MSCI AC ASEAN 10/40 Net [Before 1 December 2021, MSCI AC ASEAN Net]	1.03	-11.8	<u>(142,220,046)</u>
As at 30 September 2021	<u>1,367,018,456</u>	MSCI AC ASEAN Net	1.04	+19.3	<u>274,387,944</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

\*\* Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

\*\*\* % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

\*\*\*\* Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

**(ii) Interest rate risk**

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2022 Less than 1 month US\$	2021 Less than 1 month US\$
Cash at banks	<u>35,841,837</u>	<u>33,818,406</u>
Total interest sensitivity gap	<u>35,841,837</u>	<u>33,818,406</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

**(iii) Currency risk**

The Fund holds assets and liabilities denominated in a number of currencies HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-US\$ currencies. Refer to Note 10(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	US\$ equivalent	% of reasonable possible change against US\$ (Note**)	Estimated impact on net asset value US\$
Net currency exposures (Note*)			
<u>2022</u>			
Australian Dollar	14,173,771	-11.0	(1,559,115)
Chinese Yuan (Offshore)	5,102,258	-9.5	(484,715)
Hong Kong Dollar	632,713	-0.8	(5,062)
Indonesian Rupiah	280,440,209	-6.0	(16,826,413)
Malaysian Ringgit	130,177,794	-9.7	(12,627,246)
Philippine Peso	72,756,049	-13.0	(9,458,286)
Singapore Dollar	329,087,435	-5.4	(17,770,721)
Thai Baht	246,558,965	-10.3	(25,395,573)
Vietnamese Dong	30,388,060	-4.6	(1,397,851)
	<u>1,109,317,254</u>		<u>(85,524,982)</u>

#### 2021

Australian Dollar	24,889,297	+0.8	199,114
Chinese Yuan (Offshore)	3,685,013	+5.1	187,936
Hong Kong Dollar	1,666,394	-0.4	(6,666)
Indonesian Rupiah	282,095,223	+4.0	11,283,809
Malaysian Ringgit	162,535,979	-0.7	(1,137,752)
Philippine Peso	122,147,202	-5.0	(6,107,360)
Singapore Dollar	315,250,549	+0.6	1,891,503
Thai Baht	324,939,993	-6.3	(20,471,220)
Vietnamese Dong	39,296,007	+1.9	746,624
	<u>1,276,505,657</u>		<u>(13,414,012)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

\*\* % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

#### (b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2022 and 2021 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2022 Exposure to counterparties US\$	2021 Exposure to counterparties US\$
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	4,369,227	6,419,961
S&P(A)/Moody's(A)/FITCH(A)	31,472,610	27,398,445
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	104,332	47,026
S&P(A)/Moody's(A)/FITCH(A)	32,704	27,743
Investment and derivative balances with custodian		
S&P(AA)/Moody's(Aa)/FITCH(AA)	<u>1,134,330,365</u>	<u>1,336,730,735</u>

### (c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2022		2021	
	Less than 1 month US\$	1 to 12 months US\$	Less than 1 month US\$	1 to 12 months US\$
Amounts due to brokers	7,689,110	-	4,031,418	-
Amounts payable on redemption	2,955,027	-	5,634,199	-
Derivatives	908,516	-	616,678	3
Other accounts payable	1,781,636	-	2,015,611	-
Net assets attributable to holders of redeemable units	<u>1,170,150,124</u>	<u>-</u>	<u>1,367,018,456</u>	<u>-</u>
Total financial liabilities	<u>1,183,484,413</u>	<u>-</u>	<u>1,379,316,362</u>	<u>3</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

### (d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2022 and 2021, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position US\$	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments US\$	Collateral and margin deposits US\$	Net amount US\$
<u>2022</u>				
<u>Assets</u>				
Derivatives	137,036	(47,422)	-	89,614
Financial assets at fair value through profit and loss	137,036	(47,422)	-	89,614

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position US\$	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments US\$	Collateral and margin deposits US\$	Net amount US\$

Financial assets at fair value through profit and loss	72,202	(11,540)	-	60,662

	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position US\$	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments US\$	Collateral and margin deposits US\$	Net amount US\$
<u>2021</u>				
<u>Liabilities</u>				
Derivatives	605,396	(11,540)	-	593,856
Financial liabilities at fair value through profit and loss	605,396	(11,540)	-	593,856

**(II) Capital risk management**

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

**(III) Fair value estimation**

As at 30 September 2022 and 2021, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
Listed/Quoted Investments				
<u>2022</u>				
<u>Assets</u>				
Equities	1,134,208,181	-	-	1,134,208,181
Derivatives	-	259,220	-	259,220
Total financial assets at fair value through profit and loss	1,134,208,181	259,220	-	1,134,467,401
<u>Liabilities</u>				
Derivatives	-	908,516	-	908,516
Total financial liabilities at fair value through profit and loss	-	908,516	-	908,516
Unlisted/Unquoted Investments				
<u>2022</u>				
<u>Assets</u>				
Equities	-	-	-	-
Total financial assets at fair value through profit and loss	-	-	-	-

Listed/Quoted Investments	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
<u>2021</u>				
<u>Assets</u>				
Equities	1,336,495,417	-	-	1,336,495,417

Total financial assets at fair value through profit and loss	<u>1,336,495,417</u>	<u>310,087</u>	<u>-</u>	<u>1,336,805,504</u>
<u>Liabilities</u>				
Derivatives	-	616,681	-	616,681
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>616,681</u>	<u>-</u>	<u>616,681</u>
Unlisted/Unquoted Investments				
<u>2021</u>				
<u>Assets</u>				
Equities	-	-	-	-
Derivatives	-	-	-	-
Total financial assets at fair value through profit and loss	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2022 and 2021.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2022 and 2021.

## 5 Net (losses)/gains on investments and derivatives

	2022 US\$	2021 US\$
Change in unrealized gains/losses in value of investments and derivatives	(219,647,737)	205,000,284
Realized gains on sale of investments and derivatives	47,106,452	124,672,072
	<u>(172,541,285)</u>	<u>329,672,356</u>

## 6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2022 and 2021.

## 7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments US\$	% of the Fund's total aggregate value of transactions	Commission paid US\$	% of the Fund's total commission paid in the year	Average commission rate %
<u>2022</u>					
J.P. Morgan Securities (Asia Pacific) Limited	136,144,102	7.49	90,573	7.15	0.07
<u>2021</u>					
J.P. Morgan Securities (Asia Pacific) Limited	140,793,387	7.32	183,343	8.44	0.13

(b) Balances with the Manager and its Connected Persons as at year end:

	2022 US\$	2021 US\$
Cash at banks	4,369,227	6,419,961
Amounts receivable	1,964,505	186,717
Amounts payable	(1,698,422)	(1,938,037)

As at 30 September 2022, the Fund's investment and derivative balance of US\$1,134,330,365 (2021: US\$1,336,730,735) represents the investments and derivatives held by the custodian, JPMorgan Chase Bank, N.A., a Connected Person of the Manager.

- (c) During the year ended 30 September 2022, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to US\$7,290 (2021: US\$13,521).
- (d) Management fee for USD Class C (acc) of 0.75% per annum and all other share classes of 1.5% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.
- (e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The Manager and certain of its Directors and members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction US\$
<u>2022</u>							
<u>Directors of the Manager</u>							
- HKD Class (acc)	10,718,328	-	11,138,648	-	-	21,856,976	-
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>							
- USD Class (acc)	754,576	N/A	406,018	(262,499)	N/A	898,095	3,364
- USD Class C (acc)	100,000	N/A	-	-	N/A	100,000	-

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction US\$
<u>2022</u>							
<u>JPMorgan Asset Management (S) Limited</u>							
- USD Class (acc)	281.639	N/A	38.760	(46.659)	N/A	273.740	370
<u>JPMorgan Funds (Asia) Limited</u>							
- USD Class (acc)	-	N/A	-	-	N/A	-	-
<u>2021</u>							
<u>Directors of the Manager</u>							
- HKD Class (acc)	-	10,718.328	-	-	-	10,718.328	-
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>							
- USD Class (acc)	507.234	N/A	294.314	(46.972)	N/A	754.576	186
- USD Class C (acc)	-	N/A	100.000	-	N/A	100.000	-
<u>JPMorgan Asset Management (S) Limited</u>							
- USD Class (acc)	93.318	N/A	234.980	(46.659)	N/A	281.639	185
<u>JPMorgan Funds (Asia) Limited</u>							
- USD Class (acc)	15.479	N/A	-	(15.479)	N/A	-	-

- (f) Trustee's fee of 0.018% per annum of the net asset value of the Fund is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2022 and 2021, in addition to the management fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	1,594	1,473
Other income	185	-
Transaction costs	(153,372)	(241,267)
Safe custody and bank charges	(514,610)	(510,530)

## 8 Borrowings

During the year ended 30 September 2022, the Fund has unsecured short-term bank borrowings with a duration of less than 7 days. The Fund has no bank borrowing during the year ended 30 September 2021. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

## 9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2022, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to US\$1,561,152,343 (2021: US\$1,356,325,125). Commission which amounted to US\$156,702 (2021: US\$373,120) is paid from the Fund on these transactions.

## 10 Derivatives

## 11 Distribution

No distribution was made during the year (2021: nil).

**Independent Auditor's Report**

To the Unitholders of JPMorgan ASEAN Fund (the "Fund")

**Report on the Audit of the Financial Statements****Opinion**

What we have audited

The financial statements of JPMorgan ASEAN Fund, which are set out on pages 4 to 22, comprise:

- the Statement of Financial Position as at 30 September 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2022, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

**Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Other Information**

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Management for the Financial Statements**

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 7 July 1983, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

**Independent Auditor's Report (Continued)**

To the Unitholders of JPMorgan ASEAN Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the  
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure  
Provisions of the Trust Deed and Appendix E of the  
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers  
Certified Public Accountants

Hong Kong, 20 January 2023

**Statement of Responsibilities of the Manager and the Trustee****Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

**Trustee's Responsibilities**

The Trustee of the Fund is required to:

- ensure that the Fund is managed by the Manager in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto; and
- report to the unitholders for each annual accounting period on the conduct of the Manager in the management of the Fund.

**Report of the Trustee to the Unitholders**

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 7 July 1983, as amended, for the year ended 30 September 2022.

Bank of East Asia (Trustees) Limited, Trustee

## UK Tax Information

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Asia Equity Dividend Fund (the "Fund") was established under a Trust Deed dated 6 May 2011, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("SFC").

The investment objective of the Fund is to aim to provide income and long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities of companies in the Asia Pacific region (excluding Japan) that the Investment Manager expects to pay dividends. The Fund's holding of these equity securities will be selected based on historical records and company announcements on dividends, in addition to their potential for long-term capital appreciation.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

##### *Standards and amendments to existing standards effective from 1 October 2021*

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2021 that have had a material impact on the Fund.

##### *New standards, amendments and interpretations effective after 1 October 2021 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

*Transfers between levels of the fair value hierarchy*

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

**(c) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

**(d) Income and expense**

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

**(e) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(f) Transaction costs**

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**(g) Cash and cash equivalents**

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

**(h) Amounts due from/to brokers**

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

**(i) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**(j) Distribution payable to holders of redeemable units**

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**2022

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2022		2021	
	Fair value of investments US\$	% of net assets	Fair value of investments US\$	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
<u>Equities</u>				
- Australia	263,484,792	22.1	197,009,437	15.2
- China	216,672,538	18.2	198,028,811	15.3
- Hong Kong	187,107,881	15.7	235,209,886	18.1
- Taiwan	147,018,650	12.3	222,419,335	17.1
- Korea	122,925,602	10.3	148,989,358	11.5
- Singapore	111,544,024	9.4	98,387,607	7.6
- Indonesia	70,836,761	5.9	64,468,483	5.0
- Others	76,091,962	6.4	127,698,758	9.8
	<u>1,195,682,210</u>	<u>100.3</u>	<u>1,292,211,675</u>	<u>99.6</u>
Derivatives				
- Forward foreign exchange contracts	1,604,195	0.1	1,108,362	0.1
	<u>1,197,286,405</u>	<u>100.4</u>	<u>1,293,320,037</u>	<u>99.7</u>
<u>Liabilities</u>				
Derivatives				
- Forward foreign exchange contracts	(16,987,221)	(1.4)	(7,161,756)	(0.6)
Total Listed/Quoted Investments	<u>1,180,299,184</u>	<u>99.0</u>	<u>1,286,158,281</u>	<u>99.1</u>

Also, refer to Note 11 for the exposures on derivatives.

	Net asset value US\$	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) US\$
As at 30 September 2022	<u>1,192,541,458</u>	MSCI AC Asia Pacific ex Japan Net	0.91	-27.0	<u>(293,007,436)</u>
As at 30 September 2021	<u>1,297,666,248</u>	MSCI AC Asia Pacific ex Japan Net	0.94	+16.6	<u>202,487,841</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

\*\* Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

\*\*\* % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

\*\*\*\* Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2022 Less than 1 month US\$	2021 Less than 1 month US\$
Cash at banks	25,815,350	15,996,141
Short-term bank loans - unsecured	-	(2,000,000)
Total interest sensitivity gap	<u>25,815,350</u>	<u>13,996,141</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-US\$ currencies. Refer to Note 11 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	US\$ equivalent	% of reasonable possible change against US\$ (Note**)	Estimated impact on net asset value US\$

	<u>1,827,900,043</u>		<u>34,146,947</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

\*\* % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

**(b) Credit risk**

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2022 and 2021 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2022 Exposure to counterparties US\$	2021 Exposure to counterparties US\$
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	2,607,831	7,097,700

Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>1,195,682,210</u>	<u>1,292,211,675</u>

**(c) Liquidity risk**

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2022		2021	
	Less than 1 month US\$	1 to 12 months US\$	Less than 1 month US\$	1 to 12 months US\$
Short-term bank loans - unsecured	-	-	2,000,000	-
Amounts due to brokers	3,631,468	-	8,443,967	-
Amounts payable on redemption	8,622,901	-	8,051,088	-
Distribution payable	5,610,708	-	4,997,620	-
Derivatives	16,987,162	59	7,152,957	8,799
Other accounts payable	1,694,762	-	1,768,064	-
Net assets attributable to holders of redeemable units	<u>1,192,541,458</u>	-	<u>1,297,666,248</u>	-
Total financial liabilities	<u>1,229,088,459</u>	<u>59</u>	<u>1,330,079,944</u>	<u>8,799</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

**(d) Offsetting and amounts subject to master netting arrangements and similar agreements**

As at 30 September 2022 and 2021, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position US\$	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments US\$	Collateral and margin deposits US\$	Net amount US\$
--	--	--	-------------------------------------	-----------------

2022

Assets

Financial liabilities at fair value through profit and loss	6,001,191	(226,556)	-	5,774,635

**(II) Capital risk management**

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

**(III) Fair value estimation**

As at 30 September 2022 and 2021, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
<b>2022</b>				
<u>Assets</u>				
Equities	1,195,682,210	-	-	1,195,682,210
Derivatives	-	1,604,195	-	1,604,195
Total financial assets at fair value through profit and loss	<u>1,195,682,210</u>	<u>1,604,195</u>	<u>-</u>	<u>1,197,286,405</u>
<u>Liabilities</u>				
Derivatives	-	16,987,221	-	16,987,221
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>16,987,221</u>	<u>-</u>	<u>16,987,221</u>
<b>2021</b>				
<u>Assets</u>				
Equities	1,292,211,675	-	-	1,292,211,675
Derivatives	-	1,108,362	-	1,108,362
Total financial assets at fair value through profit and loss	<u>1,292,211,675</u>	<u>1,108,362</u>	<u>-</u>	<u>1,293,320,037</u>
<u>Liabilities</u>				
Derivatives	-	7,161,756	-	7,161,756
Total financial liabilities at fair value through profit and loss	<u>-</u>	<u>7,161,756</u>	<u>-</u>	<u>7,161,756</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2022 and 2021.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2022 and 2021.

## 5 Net (losses)/gains on investments and derivatives

	2022 US\$	2021 US\$
Change in unrealized gains/losses in value of investments and derivatives	(344,940,585)	121,863,151
Realized (losses)/gains on sale of investments and derivatives	(44,475,059)	174,458,507
	<u>(389,415,644)</u>	<u>296,321,658</u>

## 6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2021: nil).

## 7 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received and capital gains derived during the years ended 30 September 2022 and 2021.

## 8 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments US\$	% of the Fund's total aggregate value of transactions	Commission paid US\$	% of the Fund's total commission paid in the year	Average commission rate %
<u>2022</u>					
J.P. Morgan India Private Limited	1,525,826	0.09	610	0.07	0.04
J.P. Morgan Securities Australia Limited	37,013,888	2.17	16,975	1.88	0.05
J.P. Morgan Securities (Asia Pacific) Limited	88,069,315	5.17	56,971	6.29	0.06
The Hongkong and Shanghai Banking Corporation Limited	26,807,210	1.57	18,969	2.10	0.07
The Hongkong and Shanghai Banking Corporation Limited, Seoul	165,102	0.01	165	0.02	0.10
<u>2021</u>					
HSBC Securities & Capital Markets (India) Private Limited	3,738,067	0.22	4,112	0.32	0.11
J.P. Morgan India Private Limited	1,203,898	0.07	1,084	0.09	0.09
J.P. Morgan Securities Australia Limited	7,325,182	0.43	5,529	0.43	0.08
J.P. Morgan Securities (Asia Pacific) Limited	71,709,776	4.21	55,659	4.37	0.08
The Hongkong and Shanghai Banking Corporation Limited	51,331,005	3.02	60,003	4.71	0.12
The Hongkong and Shanghai Banking Corporation Limited, Seoul	657,590	0.04	263	0.02	0.04

(b) Balances with the Manager and its Connected Persons as at year end:

	2022 US\$	2021 US\$
Cash at banks	2,607,831	7,097,700
Amounts receivable	793,411	2,447,825
Amounts payable	<u>(1,590,113)</u>	<u>(1,652,488)</u>

(c) During the year ended 30 September 2022, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to US\$5,224,086 (2021: realized gains amounting to US\$3,634,401).

(d) During the year ended 30 September 2022, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to US\$2,908 (2021: US\$3,843).

(e) Management fee for USD Class C (div) and USD Class C (mth) of 0.75% per annum and all other share classes of 1.5% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of US\$40 per valuation if the Fund's net asset value is larger than US\$5 million but smaller than US\$20 million, or US\$70 per valuation if the Fund's net asset value is larger than US\$20 million.

(f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction US\$
<u>2022</u>

<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	18,618.090	7,540.986	(3,163.934)	22,995.142	6,707

(g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first US\$40 million, 0.04% per annum for the balance from US\$40 million to US\$70 million, and 0.025% per annum for the balance in excess of US\$70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

(h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.

- (i) During the years ended 30 September 2022 and 2021, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	23,386	67,290
Safe custody and bank charges	(34,471)	(23,524)
Transaction costs	<u>(74,556)</u>	<u>(62,272)</u>

- (j) During the years ended 30 September 2022 and 2021, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	2,101	4,159
Other operating expenses	-	(148)
Interest expense	(25,024)	(12,427)
Transaction costs	(78,539)	(139,750)
Safe custody and bank charges	<u>(415,751)</u>	<u>(458,122)</u>

## 9 Borrowings

During the years ended 30 September 2022 and 2021, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

## 10 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2022, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to US\$1,411,296,461 (2021: US\$1,259,721,702). Commission which amounted to US\$159,412 (2021: US\$345,098) is paid from the Fund on these transactions.

## 11 Derivatives

**Independent Auditor's Report**

To the Unitholders of JPMorgan Asia Equity Dividend Fund (the "Fund")

**Report on the Audit of the Financial Statements****Opinion**

What we have audited

The financial statements of JPMorgan Asia Equity Dividend Fund, which are set out on pages 30 to 68, comprise:

- the Statement of Financial Position as at 30 September 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2022, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

**Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Other Information**

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Management for the Financial Statements**

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 6 May 2011, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

**Independent Auditor's Report** (Continued)

To the Unitholders of JPMorgan Asia Equity Dividend Fund  
(the "Fund")

**Auditor's Responsibilities for the Audit of the  
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure  
Provisions of the Trust Deed and Appendix E of the  
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers  
Certified Public Accountants

Hong Kong, 20 January 2023

**Statement of Responsibilities of the Manager and the Trustee****Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

**Trustee's Responsibilities**

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

**Report of the Trustee to the Unitholders**

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 6 May 2011, as amended, for the year ended 30 September 2022.

HSBC Institutional Trust Services (Asia) Limited, Trustee

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Asia Growth Fund (the "Fund") was established under a Trust Deed dated 11 May 2007, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("SFC").

Prior to 30 April 2021, the investment objective of the Fund was "to provide investors with long-term capital appreciation by investing at least 70% of its total net asset value in equity securities of companies whose predominant business will benefit from, or is related to, the growth in Asian economies", and the Fund may invest up to 30% of its total net asset value in equity securities of companies in non-Asian countries and also invest up to 10% of its total net asset value in non-equity securities in any countries.

With effect from 30 April 2021, the investment objective of the Fund has been changed to "to provide investors with long-term capital appreciation by investing at least 70% of its total net asset value in equity securities of companies whose predominant business will benefit from, or is related to, the growth in Asian economies."

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

##### *Standards and amendments to existing standards effective from 1 October 2021*

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2021 that have had a material impact on the Fund.

##### *New standards, amendments and interpretations effective after 1 October 2021 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

*Transfers between levels of the fair value hierarchy*

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

**(e) Income and expense**

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

**(f) Transaction costs**

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**(g) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

#### (h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

#### (i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

#### (j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

### 3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

#### 2022

**4 Financial risk management****(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

**(a) Market risk****(i) Market price risk**

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

Listed/Quoted Investments	2022		2021	
	Fair value of investments US\$	% of net assets	Fair value of investments US\$	% of net assets
<b>Assets</b>				
<b>Equities</b>				
- China	188,865,373	33.6	291,482,723	31.6
- India	95,397,775	17.0	148,561,972	16.1
- Taiwan	75,300,164	13.4	167,555,181	18.1
- Indonesia	61,161,369	10.9	53,720,382	5.8
- Hong Kong	52,576,269	9.3	106,376,464	11.5
- Korea	50,424,011	9.0	94,049,503	10.2
- Others	33,439,562	5.8	50,624,892	5.4
	<u>557,164,523</u>	<u>99.0</u>	<u>912,371,117</u>	<u>98.7</u>
<b>Derivatives</b>				
- Forward foreign exchange contracts	105,215	0.0	198,779	0.0
	<u>557,269,738</u>	<u>99.0</u>	<u>912,569,896</u>	<u>98.7</u>
<b>Liabilities</b>				
<b>Derivatives</b>				
- Forward foreign exchange contracts	(954,222)	(0.1)	(14,694)	(0.0)
	<u>(954,222)</u>	<u>(0.1)</u>	<u>(14,694)</u>	<u>(0.0)</u>
<b>Total Listed/Quoted Investments</b>	<u><u>556,315,516</u></u>	<u><u>98.9</u></u>	<u><u>912,555,202</u></u>	<u><u>98.7</u></u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value US\$	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) US\$
As at 30 September 2022	<u>562,673,437</u>	MSCI AC Asia ex Japan Net	1.04	-28.7	<u>(167,946,767)</u>
As at 30 September 2021	<u>924,503,930</u>	MSCI AC Asia ex Japan Net	1.03	+14.4	<u>137,122,423</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

\*\* Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

\*\*\* % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

\*\*\*\* Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

## (ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2022 Less than 1 month US\$	2021 Less than 1 month US\$
Cash at banks	5,663,888	22,140,125
Total interest sensitivity gap	<u>5,663,888</u>	<u>22,140,125</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

## (iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-US\$ currencies. Refer to Note 10 for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	US\$ equivalent	% of reasonable possible change against US\$ (Note**)	Estimated impact on net asset value US\$
Net currency exposures (Note*)			
<u>2022</u>			
Chinese Yuan (Offshore)	79,400,632	-9.5	(7,543,060)
Hong Kong Dollar	197,655,268	-0.8	(1,581,242)
Indian Rupee	95,397,775	-8.8	(8,395,004)
Indonesian Rupiah	61,161,369	-6.0	(3,669,682)
Korean Won	50,424,011	-17.2	(8,672,930)
Singapore Dollar	14,708,913	-5.4	(794,281)
Taiwan Dollar	77,717,812	-12.2	(9,481,573)
Thai Baht	10,409,814	-10.3	(1,072,211)
Vietnamese Dong	4,813,581	-4.6	(221,425)
	<u>591,689,175</u>		<u>(41,431,408)</u>

Net currency exposures (Note*)	US\$ equivalent	% of reasonable possible change against US\$ (Note**)	Estimated impact on net asset value US\$
<u>2021</u>			
Chinese Yuan (Offshore)	105,679,132	+5.1	5,389,636
Hong Kong Dollar	363,161,854	-0.4	(1,452,647)
Indian Rupee	149,914,031	-0.6	(899,484)
Indonesian Rupiah	53,720,382	+4.0	2,148,815
Korean Won	94,049,503	-1.2	(1,128,594)
Taiwan Dollar	168,017,347	+4.0	6,720,694
Thai Baht	10,299,992	-6.3	(648,899)
Vietnamese Dong	5,544,432	+1.9	105,344
	<u>950,386,673</u>		<u>10,234,865</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

\*\* % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

#### (b) Credit risk

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2022 and 2021 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2022 Exposure to counterparties US\$	2021 Exposure to counterparties US\$
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	1,069,529	1,802,018
S&P(A)/Moody's(A)/FITCH(A)	4,594,359	20,338,107
Derivatives issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	44,984	15,086
S&P(A)/Moody's(A)/FITCH(A)	60,231	183,693
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>557,164,523</u>	<u>912,371,117</u>

### (c) Liquidity risk

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<u>2022</u>		<u>2021</u>	
	Less than 1 month US\$	1 to 12 months US\$	Less than 1 month US\$	1 to 12 months US\$
Amounts due to brokers	88,344	-	20,386,719	-
Amounts payable on redemption	2,139,447	-	6,941,719	-
Derivatives	954,218	4	13,548	1,146
Other accounts payable	889,133	-	1,375,424	-
Net assets attributable to holders of redeemable units	<u>562,673,437</u>	-	<u>924,503,930</u>	-
Total financial liabilities	<u>566,744,579</u>	<u>4</u>	<u>953,221,340</u>	<u>1,146</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

### (d) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 30 September 2022 and 2021, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position US\$	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments US\$	Collateral and margin deposits US\$	Net amount US\$
<u>2022</u>				
<u>Assets</u>				
Derivatives	105,215	(59,587)	-	45,628

Financial assets at fair value through profit and loss	198,744	(12,435)	-	186,309
	Gross amounts of recognized financial liabilities presented in the Statement of Financial Position US\$	Related amounts subject to master netting arrangements and similar agreements net off against Financial Instruments US\$	Collateral and margin deposits US\$	Net amount US\$
<u>Liabilities</u>				
Derivatives	14,685	(12,435)	-	2,250
Financial liabilities at fair value through profit and loss	14,685	(12,435)	-	2,250

**(II) Capital risk management**

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

**(III) Fair value estimation**

As at 30 September 2022 and 2021, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
<b>2022</b>				
<u>Assets</u>				
Equities	557,164,523	-	-	557,164,523
Derivatives	-	105,215	-	105,215
<b>Total financial assets at fair value through profit and loss</b>	<b>557,164,523</b>	<b>105,215</b>	<b>-</b>	<b>557,269,738</b>
<u>Liabilities</u>				
Derivatives	-	954,222	-	954,222
<b>Total financial liabilities at fair value through profit and loss</b>	<b>-</b>	<b>954,222</b>	<b>-</b>	<b>954,222</b>
<b>2021</b>				
<u>Assets</u>				
Equities	912,371,117	-	-	912,371,117
Derivatives	-	198,779	-	198,779
<b>Total financial assets at fair value through profit and loss</b>	<b>912,371,117</b>	<b>198,779</b>	<b>-</b>	<b>912,569,896</b>
<u>Liabilities</u>				
Derivatives	-	14,694	-	14,694
<b>Total financial liabilities at fair value through profit and loss</b>	<b>-</b>	<b>14,694</b>	<b>-</b>	<b>14,694</b>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2022 and 2021.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2022 and 2021.

## 5 Net (losses)/gains on investments and derivatives

	2022	2021
	US\$	US\$
Change in unrealized gains/losses in value of investments and derivatives	(287,746,214)	6,661,802
Realized (losses)/gains on sale of investments and derivatives	(22,742,545)	50,009,268
	<u>(310,488,759)</u>	<u>56,671,070</u>

## 6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received and capital gains derived during the years ended 30 September 2022 and 2021.

## 7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments US\$	% of the Fund's total aggregate value of transactions	Commission paid US\$	% of the Fund's total commission paid in the year	Average commission rate %
<u>2022</u>					
HSBC Securities & Capital Markets (India) Private Limited	2,305,716	0.44	2,572	0.78	0.11
J.P. Morgan India Private Limited	3,060,480	0.58	1,224	0.37	0.04

(b) Balances with the Manager and its Connected Persons as at year end:

	2022	2021
	US\$	US\$
Cash at banks	1,069,529	1,802,018
Amounts receivable	40	82
Amounts payable	(800,390)	(1,228,698)

(c) During the year ended 30 September 2022, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee, with realized losses amounting to US\$1,588,568 (2021: realized gains amounting to US\$165,045).

(d) During the year ended 30 September 2022, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to US\$8,875 (2021: US\$21,756).

(e) Management fee for USD Class C (acc) of 0.75% per annum and all other share classes of 1.5% per annum of the net asset value of each Class is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of US\$40 per valuation if the Fund's net asset value is larger than US\$5 million but smaller than US\$20 million, or US\$70 per valuation if the Fund's net asset value is larger than US\$20 million.

(f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

The Manager and certain of its Directors and members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction US\$
<u>2022</u>

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first US\$40 million, 0.04% per annum for the balance from US\$40 million to US\$70 million, and 0.025% per annum for the balance in excess of US\$70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2022 and 2021, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(e) and 7(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	14,799	27,420
Other income	855	17,602
Transaction costs	(3,960)	(16,388)
Safe custody and bank charges	(27,680)	(5,846)

- (j) During the years ended 30 September 2022 and 2021, in addition to the trustee's fee as disclosed in Note 7(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	1,866	5,313
Other operating expenses	-	(148)
Interest expense	(842)	(769)
Transaction costs	(37,543)	(153,286)
Safe custody and bank charges	(265,912)	(328,509)

## 8 Borrowings

During the years ended 30 September 2022 and 2021, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

**9 Soft dollar arrangements/Commission sharing arrangements**

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2022, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to US\$413,085,132 (2021: US\$699,221,354). Commission which amounted to US\$50,149 (2021: US\$198,083) is paid from the Fund on these transactions.

11 Distribution

No distribution was made during the year (2021: nil).

**Independent Auditor's Report**

To the Unitholders of JPMorgan Asia Growth Fund (the "Fund")

**Report on the Audit of the Financial Statements****Opinion**

What we have audited

The financial statements of JPMorgan Asia Growth Fund, which are set out on pages 78 to 98, comprise:

- the Statement of Financial Position as at 30 September 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2022, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

**Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Other Information**

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Management for the Financial Statements**

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 11 May 2007, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

**Independent Auditor's Report** (Continued)

To the Unitholders of JPMorgan Asia Growth Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the  
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure  
Provisions of the Trust Deed and Appendix E of the  
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers  
Certified Public Accountants

Hong Kong, 20 January 2023

**Statement of Responsibilities of the Manager and the Trustee****Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

**Trustee's Responsibilities**

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

**Report of the Trustee to the Unitholders**

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 11 May 2007, as amended, for the year ended 30 September 2022.

HSBC Institutional Trust Services (Asia) Limited, Trustee  
20 January 2023

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Asian Smaller Companies Fund (the "Fund") was established under a Trust Deed dated 2 December 1991, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in the equity securities of small to medium sized companies in the Asia-Pacific region, excluding Japan and Australia except the Manager may, from time to time, invest in Japan and Australia when appropriate investment opportunities arise.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

##### *Standards and amendments to existing standards effective from 1 October 2021*

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2021 that have had a material impact on the Fund.

##### *New standards, amendments and interpretations effective after 1 October 2021 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value. When trading of financial instruments in markets that are not considered to be active, the financial instruments are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs.

*Transfers between levels of the fair value hierarchy*

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

**(c) Securities borrowing**

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

**(e) Income and expense**

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

**(f) Transaction costs**

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**(g) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

#### (h) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

#### (i) Amounts due from/to brokers

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

#### (j) Proceeds and payments on allotment and redemption of units

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

### 3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)

#### 2022

	HKD Class (acc) Units	USD Class (acc) Units
Number of units in issue:		
At the beginning of the year	3,936,576.647	772,375.981
Total allotments	411,988.481	136,527.899
Total redemptions	<u>(670,187.768)</u>	<u>(135,733.011)</u>
At the end of the year	<u>3,678,377.360</u>	<u>773,170.869</u>
	HK\$	US\$
Net assets attributable to holders of redeemable units	<u>45,581,333</u>	<u>191,689,396</u>
Net assets attributable to holders of redeemable units (per unit)	<u>12.39</u>	<u>247.93</u>

2021

	HKD Class (acc) Units	USD Class (acc) Units
Number of units in issue:		
At the beginning of the year	3,855,757.670	580,294.412
Total allotments	838,457.308	450,906.619
Total redemptions	(757,638.331)	(258,825.050)
At the end of the year	<u>3,936,576.647</u>	<u>772,375.981</u>
	HK\$	US\$
Net assets attributable to holders of redeemable units	<u>70,157,278</u>	<u>277,715,741</u>
Net assets attributable to holders of redeemable units (per unit)	<u>17.82</u>	<u>359.56</u>

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2022		2021	
	Fair value of investments US\$	% of net assets	Fair value of investments US\$	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- India	48,455,456	24.5	56,680,327	19.8
- Taiwan	37,421,940	19.0	81,606,109	28.4
- Korea	25,934,567	13.1	44,072,226	15.4
- China	19,103,243	9.7	20,657,310	7.2
- Hong Kong	15,809,785	8.0	33,908,667	11.8
- Thailand	11,689,425	5.9	8,165,758	2.8
- Philippines	10,143,665	5.1	8,816,778	3.1
- Others	24,624,006	12.5	22,255,046	7.8
Total Listed/Quoted Investments	<u>193,182,087</u>	<u>97.8</u>	<u>276,162,221</u>	<u>96.3</u>

	Net asset value US\$	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) US\$
As at 30 September 2022	<u>197,496,009</u>	MSCI AC Asia ex Japan Small Cap Net	0.88	-24.8	<u>(43,101,529)</u>
As at 30 September 2021	<u>286,728,000</u>	MSCI AC Asia ex Japan Small Cap Net	0.84	+40.9	<u>98,508,272</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- \* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- \*\* Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- \*\*\* % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- \*\*\*\* Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

**(ii) Interest rate risk**

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2022 Less than 1 month US\$	2021 Less than 1 month US\$
Cash at banks	<u>5,389,907</u>	<u>13,865,071</u>
Total interest sensitivity gap	<u>5,389,907</u>	<u>13,865,071</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

**(iii) Currency risk**

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	US\$ equivalent	% of reasonable possible change against US\$ (Note**)	Estimated impact on net asset value US\$
<u>2022</u>			
Chinese Yuan (Offshore)	17,884,875	-9.5	(1,699,063)
Hong Kong Dollar	21,069,073	-0.8	(168,553)
Indian Rupee	48,484,725	-8.8	(4,266,656)
Indonesian Rupiah	5,085,588	-6.0	(305,135)
Korean Won	25,934,567	-17.2	(4,460,746)
Malaysian Ringgit	6,337,218	-9.7	(614,710)
Philippine Peso	10,143,665	-13.0	(1,318,676)
Singapore Dollar	4,025,761	-5.4	(217,391)
Taiwan Dollar	37,602,796	-12.2	(4,587,541)
Thai Baht	11,689,425	-10.3	(1,204,011)
Vietnamese Dong	5,126,778	-4.6	(235,832)
	<u>193,384,471</u>		<u>(19,078,314)</u>

2021

Chinese Yuan (Offshore)	15,624,117	+5.1	796,830
Hong Kong Dollar	37,232,517	-0.4	(148,930)
Indian Rupee	57,105,179	-0.6	(342,631)
Indonesian Rupiah	4,028,621	+4.0	161,145
Korean Won	43,981,795	-1.2	(527,782)
Malaysian Ringgit	10,191,852	-0.7	(71,343)
Philippine Peso	8,816,778	-5.0	(440,839)
Singapore Dollar	1,837,332	+0.6	11,024
Taiwan Dollar	83,751,279	+4.0	3,350,051
Thai Baht	7,521,389	-6.3	(473,848)
Vietnamese Dong	6,814,697	+1.9	129,479
	<u>276,905,556</u>		<u>2,443,156</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

\*\* % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

**(b) Credit risk**

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2022 and 2021 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2022 Exposure to counterparties US\$	2021 Exposure to counterparties US\$
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	217,849	1,201,371
S&P(A)/Moody's(A)/FITCH(A)	5,172,058	12,663,700
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>193,182,087</u>	<u>276,162,221</u>

**(c) Liquidity risk**

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2022 Less than 1 month US\$	2021 Less than 1 month US\$
Amounts due to brokers	66,026	1,737,223
Amounts payable on redemption	370,047	842,140
Other accounts payable	337,348	470,802
Net assets attributable to holders of redeemable units	<u>197,496,009</u>	<u>286,728,000</u>
Total financial liabilities	<u>198,269,430</u>	<u>289,778,165</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

**(II) Capital risk management**

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

**(III) Fair value estimation**

As at 30 September 2022 and 2021, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
<u>2022</u>				
<u>Assets</u>				
Equities	193,182,087	-	-	193,182,087
Total financial assets at fair value through profit and loss	<u>193,182,087</u>	<u>-</u>	<u>-</u>	<u>193,182,087</u>
<u>2021</u>				
<u>Assets</u>				
Equities	276,162,221	-	-	276,162,221
Total financial assets at fair value through profit and loss	<u>276,162,221</u>	<u>-</u>	<u>-</u>	<u>276,162,221</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2022 and 2021.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2022 and 2021.

5 Net (losses)/gains on investments and derivatives

	2022 US\$	2021 US\$
Change in unrealized gains/losses in value of investments and derivatives	(99,804,573)	31,596,189
Realized gains on sale of investments and derivatives	8,201,520	36,060,144
	<u>(91,603,053)</u>	<u>67,656,333</u>

6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received and capital gains derived during the years ended 30 September 2022 and 2021.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments US\$	% of the Fund's total aggregate value of transactions	Commission paid US\$	% of the Fund's total commission paid in the year	Average commission rate %
<u>2022</u>					
J.P. Morgan India Private Limited	5,076,878	2.63	3,211	2.35	0.06
J.P. Morgan Securities (Asia Pacific) Limited	13,037,695	6.75	10,101	7.39	0.08
The Hongkong and Shanghai Banking Corporation Limited	5,502,271	2.85	4,808	3.52	0.09
The Hongkong and Shanghai Banking Corporation Limited, Seoul	578,876	0.30	776	0.57	0.13
<u>2021</u>					
HSBC Securities & Capital Markets (India) Private Limited	23,816	0.01	48	0.02	0.20
J.P. Morgan India Private Limited	1,753,591	0.59	1,419	0.51	0.08
J.P. Morgan Securities (Asia Pacific) Limited	18,247,088	6.19	14,278	5.14	0.08
The Hongkong and Shanghai Banking Corporation Limited	8,345,777	2.83	7,030	2.53	0.08
The Hongkong and Shanghai Banking Corporation Limited, Seoul	225,598	0.08	112	0.04	0.05

(b) Balances with the Manager and its Connected Persons as at year end:

	2022 US\$	2021 US\$
Cash at banks	217,849	1,201,371
Amounts payable	(300,411)	(1,059,993)
	<u>217,849</u>	<u>(1,059,993)</u>

(c) During the year ended 30 September 2022, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to US\$3,239 (2021: US\$4,750).

- (d) Management fee of 1.5% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of US\$40 per valuation if the Fund's net asset value is larger than US\$5 million but smaller than US\$20 million, or US\$70 per valuation if the Fund's net asset value is larger than US\$20 million.

- (e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction US\$
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	2,555.620	696.545	(1,077.436)	2,174.729	150,074
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	26.357	-	(13.178)	13.179	1,766
<u>2021</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	2,240.138	671.285	(355.803)	2,555.620	40,075
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	26.357	-	-	26.357	-

- (f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first US\$40 million, 0.04% per annum for the balance from US\$40 million to US\$70 million, and 0.025% per annum for the balance in excess of US\$70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2022 and 2021, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	616	110
Other income	-	8,192
Other operating expenses	(6,055)	-
Safe custody and bank charges	(9,273)	(3,027)
Transaction costs	(13,313)	(15,697)
	<u>(13,313)</u>	<u>(15,697)</u>

- (i) During the years ended 30 September 2022 and 2021, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	864	405
Other operating expenses	-	(148)
Interest expense	-	(2,750)
Transaction costs	(25,331)	(37,811)
Safe custody and bank charges	(133,230)	(120,669)
	<u>(133,230)</u>	<u>(120,669)</u>

**8 Borrowings**

The Fund has no bank borrowing during the year ended 30 September 2022. During the year ended 30 September 2021, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

**9 Soft dollar arrangements/Commission sharing arrangements**

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2022, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to US\$154,377,119 (2021:US\$214,070,082). Commission which amounted to US\$18,110 (2021:US\$58,940) is paid from the Fund on these transactions.

**10 Distribution**

No distribution was made during the year (2021: nil).

**Independent Auditor's Report**

To the Unitholders of JPMorgan Asian Smaller Companies Fund (the "Fund")

**Report on the Audit of the Financial Statements****Opinion**

What we have audited

The financial statements of JPMorgan Asian Smaller Companies Fund, which are set out on pages 106 to 118, comprise:

- the Statement of Financial Position as at 30 September 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2022, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

**Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Other Information**

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Management for the Financial Statements**

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 2 December 1991, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

**Independent Auditor's Report** (Continued)

To the Unitholders of JPMorgan Asian Smaller Companies  
Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the  
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure  
Provisions of the Trust Deed and Appendix E of the  
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers  
Certified Public Accountants

Hong Kong, 20 January 2023

**Statement of Responsibilities of the Manager and the Trustee**

**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

**Trustee's Responsibilities**

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

**Report of the Trustee to the Unitholders**

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 2 December 1991, as amended, for the year ended 30 September 2022.

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 2 December 1991 to 30 September 2010.

**Details of Financial Derivative Instruments  
As at 30 September 2022 (Unaudited)****(a) Forward foreign exchange contracts**

As at 30 September 2022, the Fund held outstanding forward foreign exchange contracts with details as shown in Note 11.

**(b) Futures**

As at 30 September 2022, the Fund held futures contracts with details as shown in Note 11.

**Information on Exposure Arising from Financial  
Derivative Instruments  
For the year ended 30 September 2022 (Unaudited)**

The lowest, highest and average gross exposure arising from the use of financial derivative instruments in the Fund for any purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2022.

	<b>2022 % of NAV</b>
Lowest gross exposure	23.1
Highest gross exposure	188.3
Average gross exposure	66.6

The lowest, highest and average net exposure arising from the use of financial derivative instruments in the Fund for non-hedging purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2022.

	<b>2022 % of NAV</b>
Lowest net exposure	5.0
Highest net exposure	17.0
Average net exposure	10.4

<sup>#</sup> There are some share classes with currency hedging features. For the avoidance of doubt, their exposures are not included in the calculation of the gross exposure of the Fund portfolio.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Asian Total Return Bond Fund (the "Fund") was established under a Trust Deed dated 30 November 2004, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("SFC").

The investment objective of the Fund is to achieve a competitive total return, consisting of capital growth and regular interest income, through an actively managed portfolio investing primarily (i.e. at least 70% of its total net asset value) in Asian bonds and other debt securities.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

##### *Standards and amendments to existing standards effective from 1 October 2021*

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2021 that have had a material impact on the Fund.

##### *New standards, amendments and interpretations effective after 1 October 2021 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

##### *Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Open futures and swap contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

*Transfers between levels of the fair value hierarchy*

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

**(c) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

**(d) Income and expense**

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

**(e) Transaction costs**

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**(f) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(g) Cash and cash equivalents**

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

**(h) Cash collateral and margin deposits**

Cash collateral provided by the Fund is identified in the Statement of Financial Position as cash collateral or margin deposits and are not included as a component of cash and cash equivalents.

**(i) Amounts due from/to brokers**

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

**(j) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**(k) Distribution payable to holders of redeemable units**

Proposed distributions to holders of redeemable units are recognized in the Statement of Comprehensive Income when they are appropriately authorized. The distribution on the redeemable units is recognized as a finance cost in the Statement of Comprehensive Income.

**4 Financial risk management**

**(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

**(a) Market risk**

**(i) Market price risk**

The Fund primarily invests in debt securities which are subject to interest rate risk. Refer to Note 4(l)(a)(ii) for interest rate risk.

**(ii) Interest rate risk**

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its investments, derivatives and cash deposits.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

Also, refer to Note 11 for the exposures on derivatives.

The Investment Manager monitors the Fund's interest rate risk sensitivity primarily through the modified duration of the Fund on a regular basis. The modified duration measures the sensitivity of the price of a bond relative to the change in interest rate. As at 30 September 2022, the Investment Manager estimates that the Fund has a modified duration of 4.41 (2021: 4.21). For the purpose of disclosing relevant sensitivities, the percentage of reasonable possible change in interest rate adopted is 25 basis points, and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. If the interest rates were to rise by 25 basis points with all other variables that may impact the net asset value of the Fund held constant, this would result in a decrease in net asset value of the Fund by approximately US\$15,010,917 (2021: US\$28,791,176). If the interest rates were to fall by 25 basis points, this would result in an increase in the net asset value of the Fund by the same amount.

Any cash and cash equivalents and margin deposits are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

### (iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The Fund enters in some forward foreign exchange contracts to hedge some of its foreign currency exposures to maintain limited exposure to non-US\$ currencies. Refer to Note 11(a) for the outstanding forward foreign exchange contracts as at year end.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

Net currency exposures (Note*)	US\$ equivalent	% of reasonable possible change against US\$ (Note**)	Estimated impact on net asset value US\$
<u>2022</u>			
Australian Dollar	111,930,488	-11.0	(12,312,354)

	<u>1,321,905,300</u>		<u>51,599,467</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

\*\* % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

**(b) Credit risk**

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts due from brokers, amounts receivable on allotment or interest and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2022 and 2021 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The Fund's investments are predominantly in debt securities and therefore the Fund is exposed to credit risk that the issuers may not be able to repay the principal amount and interest at maturity. Credit risk derived from debt securities is managed and monitored on an on-going basis by making reference to the credit rating and credit outlook provided by credit rating agencies, if available, and internal credit analysis.

The table below summarizes the debt securities by credit rating as at 30 September.

	2022 % of net assets	2021 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	1.5	2.3
S&P(AA)/Moody's(Aa)/FITCH(AA)	3.4	1.7
S&P(A)/Moody's(A)/FITCH(A)	17.4	13.7
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	48.2	39.1
S&P(BB)/Moody's(Ba)/FITCH(BB)	12.7	22.2
S&P(B)/Moody's(B)/FITCH(B)	2.7	6.5
S&P(CCC)/Moody's(Caa)/FITCH(CCC)	-	0.8
Unrated	7.4	11.2
	<u>93.3</u>	<u>97.5</u>

The table below summarizes the unrated debt securities as stated in the table above by their issuers' credit rating as at 30 September.

	2022 % of net assets	2021 % of net assets
S&P(AAA)/Moody's(Aaa)/FITCH(AAA)	-	0.2
S&P(A)/Moody's(A)/FITCH(A)	0.6	1.9
S&P(BBB)/Moody's(Baa)/FITCH(BBB)	1.0	2.5
Unrated	5.8	6.6
	<u>7.4</u>	<u>11.2</u>

In order to monitor the credit quality of the unrated debt securities, the Investment Manager, on the basis of internal research, prepares its own proprietary ratings for the debt securities for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt securities in order to calculate the implied ratings for each of the debt securities.

The table below summarizes the credit rating of the banks/brokers/custodian which the Fund has placed the financial assets as at 30 September.

	2022 Exposure to counterparties US\$	2021 Exposure to counterparties US\$
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	2,678,977	7,859,392
S&P(A)/Moody's(A)/FITCH(A)	107,690,148	93,321,164
Cash collateral with custodian		
S&P(A)/Moody's(A)/FITCH(A)	4,447,035	-
Margin deposits with brokers and derivatives held with/issued by brokers		
S&P(AA)/Moody's(Aa)/FITCH(AA)	1,325,706	1,471,889
S&P(A)/Moody's(A)/FITCH(A)	12,238,666	10,470,120
Investment balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>1,270,376,289</u>	<u>2,668,285,291</u>

**(c) Liquidity risk**

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2022		2021	
	Less than 1 month US\$	1 to 12 months US\$	Less than 1 month US\$	1 to 12 months US\$
Amounts due to brokers	4,447,035	-	-	-
Amounts payable on redemption	14,152,564	-	27,404,073	-
Distribution payable	6,315,937	-	11,544,210	-
Other accounts payable	1,657,842	-	2,897,805	-
Derivatives	18,220,849	8,849,838	14,648,363	97,563
Net assets attributable to holders of redeemable units	1,361,534,429	-	2,735,503,623	-
<b>Total financial liabilities</b>	<b>1,406,328,656</b>	<b>8,849,838</b>	<b>2,791,998,074</b>	<b>97,563</b>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

**(d) Offsetting and amounts subject to master netting arrangements and similar agreements**

As at 30 September 2022 and 2021, the Fund was subject to master netting arrangements with certain derivative counterparties.

In the event of default, the Fund and its counterparties have the option to settle transactions on net basis. An event of default may include failure to pay or deliver, breach of agreement or bankruptcy.

The following tables summarize the Fund's financial assets and liabilities subject to offsetting, master netting arrangements and similar agreements as at 30 September by types of financial instruments.

	Gross amounts of recognized financial assets presented in the Statement of Financial Position US\$	Related amounts subject to master netting arrangements and similar agreements net off against		Net amount US\$
		Financial Instruments US\$	Collateral and margin deposits US\$	
<b>2022</b>				
<b>Assets</b>

Derivatives	12,927,177	(6,611,814)	(1,328,549)	4,986,814
Financial liabilities at fair value through profit and loss	<u>12,927,177</u>	<u>(6,611,814)</u>	<u>(1,328,549)</u>	<u>4,986,814</u>

**(II) Capital risk management**

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

**(III) Fair value estimation**

As at 30 September 2022 and 2021, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
<u>2022</u>				
<u>Assets</u>				
Debt Securities	-	1,270,376,289	-	1,270,376,289
Derivatives	2,581,725	4,449,682	-	7,031,407
Total financial assets at fair value through profit and loss	<u>2,581,725</u>	<u>1,274,825,971</u>	<u>-</u>	<u>1,277,407,696</u>
<u>Liabilities</u>				
Derivatives	<u>3,339,984</u>	<u>23,730,703</u>	<u>-</u>	<u>27,070,687</u>
Total financial liabilities at fair value through profit and loss	<u>3,339,984</u>	<u>23,730,703</u>	<u>-</u>	<u>27,070,687</u>
<u>2021</u>				
<u>Assets</u>				
Debt Securities	-	2,668,285,291	-	2,668,285,291
Derivatives	1,345,608	9,266,792	-	10,612,400
Total financial assets at fair value through profit and loss	<u>1,345,608</u>	<u>2,677,552,083</u>	<u>-</u>	<u>2,678,897,691</u>
<u>Liabilities</u>				
Derivatives	<u>92,250</u>	<u>14,653,676</u>	<u>-</u>	<u>14,745,926</u>
Total financial liabilities at fair value through profit and loss	<u>92,250</u>	<u>14,653,676</u>	<u>-</u>	<u>14,745,926</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2022 and 2021.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2022 and 2021.

## 5 Net (losses)/gains on investments and derivatives

	2022 US\$	2021 US\$
Change in unrealized gains/losses in value of investments and derivatives	(214,799,717)	(80,408,226)
Realized (losses)/gains on sale of investments and derivatives	(220,832,393)	248,321,995
	<u>(435,632,110)</u>	<u>167,913,769</u>

6 Distribution

In the event that the amount available for distribution is insufficient to pay distributions as the Fund declares, the Manager may in its discretion determine that such distributions be paid from capital.

No undistributed income was carried forward at the end of the year (2021: nil).

Distribution Class	Ex date	Pay date	Rate	Units	2022 US\$	2021 US\$

## 7 Taxation

Overseas tax was withheld or paid on certain interest income received and capital gains derived during the years ended 30 September 2022 and 2021.

### China Taxation

The Fund held certain investment in PRC securities. Under PRC tax law, enterprise income tax of 10% is payable on dividends and interests derived by foreign investors from China, except for Government bond interest which is specifically tax exempt and bond interest derived from 7 November 2018 to 31 December 2025 by foreign institutional investors from bonds traded in PRC local bond market which is temporarily exempt. The paying entity in the PRC will be responsible for withholding such tax when making a payment. Full PRC tax provision of 10% is made for PRC sourced dividends and interests not subject to specific tax exemption where tax has not yet been withheld by the payers.

Under PRC tax law, enterprise income tax of 10% would normally be payable on gains realized from the sale of PRC securities by foreign investors. However, currently gains from disposal of China A-shares (including those on China Connect) are subject to temporary exemptions from enterprise income tax. Full PRC tax provision of 10% is made for gains from disposal of certain PRC securities that are currently not specifically exempt from enterprise income tax.

### Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

**8 Transactions with the Trustee, the Manager and their Connected Persons**

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments US\$	% of the Fund's total aggregate value of transactions	Commission paid US\$	% of the Fund's total commission paid in the year	Average commission rate %
<u>2022</u>					
HSBC Bank (China) Company Ltd	63,768,122	0.82	-	-	-
The Hongkong and Shanghai Banking Corporation Limited	192,935,610	2.47	-	-	-
<u>2021</u>					
HSBC Bank (China) Company Ltd	212,042,979	2.41	-	-	-
HSBC Securities & Capital Markets (India) Private Limited	97,344,318	1.11	-	-	-
The Hongkong and Shanghai Banking Corporation Limited	608,409,112	6.91	-	-	-

(b) Balances with the Manager and its Connected Persons as at year end:

	2022 US\$	2021 US\$
Cash at banks	2,678,977	7,859,392
Amounts receivable	-	3,516
Amounts payable	(1,244,130)	(2,484,539)

(c) During the year ended 30 September 2022, the Fund entered into forward foreign exchange contracts with Connected Persons of the Trustee with realized losses amounting to US\$7,404,412 (2021: realized gains amounting to US\$19,676,042).

(d) During the year ended 30 September 2022, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to US\$862 (2021: US\$4,592).

(e) Management fee of 1% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of US\$40 per valuation if the Fund's net asset value is larger than US\$5 million but smaller than US\$20 million, or US\$70 per valuation if the Fund's net asset value is larger than US\$20 million.

- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction US\$
<u>2022</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	34,940.962	8,569.255	(18,772.503)	24,737.714	6,851
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	223.693	-	(111.847)	111.846	-
<u>2021</u>					
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	38,517.346	7,935.647	(11,512.031)	34,940.962	18,371
<u>JPMorgan Asset Management (S) Limited</u>					
- USD Class (acc)	223.693	-	-	223.693	-

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first US\$40 million, 0.04% per annum for the balance from US\$40 million to US\$70 million, and 0.025% per annum for the balance in excess of US\$70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2022 and 2021, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 8(e) and 8(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Other income	-	1,122,735
Interest on deposits	14,134	67,803
Safe custody and bank charges	(41,701)	(19,692)

- (j) During the years ended 30 September 2022 and 2021, in addition to the trustee's fee as disclosed in Note 8(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	13,016	33,866
Interest expense	(119)	(324)
Transaction costs	(15,181)	(13,907)
Safe custody and bank charges	(343,254)	(579,766)

## 9 Borrowings

During the years ended 30 September 2022 and 2021, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

10 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2022 and 2021, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

**Independent Auditor's Report**

To the Unitholders of JPMorgan Asian Total Return Bond Fund (the "Fund")

**Report on the Audit of the Financial Statements****Opinion**

What we have audited

The financial statements of JPMorgan Asian Total Return Bond Fund, which are set out on pages 132 to 167, comprise:

- the Statement of Financial Position as at 30 September 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2022, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

**Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Other Information**

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Management for the Financial Statements**

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 30 November 2004, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

**Independent Auditor's Report (Continued)**

To the Unitholders of JPMorgan Asian Total Return Bond Fund  
(the "Fund")

**Auditor's Responsibilities for the Audit of the  
Financial Statements (Continued)**

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure  
Provisions of the Trust Deed and Appendix E of the  
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers  
Certified Public Accountants

Hong Kong, 20 January 2023

**Statement of Responsibilities of the Manager and the Trustee**

**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

**Trustee's Responsibilities**

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

**Report of the Trustee to the Unitholders**

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 30 November 2004, as amended, for the year ended 30 September 2022.

HSBC Institutional Trust Services (Asia) Limited, Trustee  
20 January 2023

Exchange (losses)/gains on cash and cash equivalents	(95,511)	647
<b>Cash and cash equivalents at the end of the year</b>	132,976	103,049
<b>Analysis of balances of cash and cash equivalents:</b>		
Cash at banks	132,976	103,049

The notes on pages 179 to 189 form part of these financial statements.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan Australia Fund (the "Fund") was established under a Trust Deed dated 5 June 1981, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("SFC").

The investment objective of the Fund is to provide investors with long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) of equity securities of companies listed on the Australian Securities Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

*Standards and amendments to existing standards effective from 1 October 2021*

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2021 that have had a material impact on the Fund.

*New standards, amendments and interpretations effective after 1 October 2021 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Fund makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

*Transfers between levels of the fair value hierarchy*

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

**(c) Securities lending and borrowing**

Securities lenders' agreements are entered into with institutions of appropriate financial standing who engage in such arrangements acceptable to the Trustee and on arm's length commercial terms. Securities lent are included in the investment portfolio of the Fund. Relevant securities lending income entitled by the Fund is accounted for in the Statement of Comprehensive Income. Collateral received for the purpose of securities lent generally consist of non-cash collateral which are off-balance sheet transactions and are therefore not included in the financial statements.

The Fund may enter into securities borrowing arrangements for short sale purposes. Short positions represent obligations to deliver securities sold but not yet purchased, and are accounted for as investments and valued at their fair value. Securities borrowed during the year are off-balance sheet transactions and are therefore not included in the investment portfolio of the Fund. Collateral placed for the purpose of securities borrowed generally consist of cash collateral and are included in the Statement of Financial Position separately.

**(d) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

**(e) Income and expense**

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

**(f) Transaction costs**

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**(g) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(h) Cash and cash equivalents**

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

**(i) Amounts due from/to brokers**

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

**(j) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**2022

	AUD Class (acc) Units	USD Class (acc) Units
Number of units in issue:		
At the beginning of the year	77,034.873	448,462.360
Total allotments	47,421.726	83,015.296
Total redemptions	(23,663.625)	(108,697.086)
At the end of the year	<u>100,792.974</u>	<u>422,780.570</u>
	A\$	US\$
Net assets attributable to holders of redeemable units	<u>1,695,735</u>	<u>14,863,212</u>
Net assets attributable to holders of redeemable units (per unit)	<u>16.82</u>	<u>35.16</u>

2021

	AUD Class (acc) Units	USD Class (acc) Units
Number of units in issue:		
At the beginning of the year	80,125.960	650,770.162
Total allotments	39,056.331	60,060.320
Total redemptions	(42,147.418)	(262,368.122)
At the end of the year	<u>77,034.873</u>	<u>448,462.360</u>
	A\$	US\$
Net assets attributable to holders of redeemable units	<u>1,447,998</u>	<u>19,764,251</u>
Net assets attributable to holders of redeemable units (per unit)	<u>18.80</u>	<u>44.07</u>

**4 Financial risk management****(l) Financial risk factors**

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

**(a) Market risk****(i) Market price risk**

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2022		2021	
	Fair value of investments US\$	% of net assets	Fair value of investments US\$	% of net assets
Listed/Quoted Investments				
<b>Assets</b>				
Equities				
- Metals & Mining	2,756,395	17.3	3,180,917	15.3
- Real Estate Management & Development	1,579,671	9.9	2,438,517	11.7
- Oil & Gas	1,227,868	7.7	1,328,607	6.4
- Diversified Financials	1,206,526	7.6	1,802,771	8.7
- Commercial Services & Supplies	1,104,523	6.9	1,525,893	7.3
- Banks	824,406	5.2	974,198	4.7
- Others	7,109,339	44.5	9,445,484	45.4
	15,808,728	99.1	20,696,387	99.5
Derivatives				
- Warrants	295	0.0	-	-
- Rights	-	-	2,085	0.0
<b>Total Listed/Quoted Investments</b>	<b>15,809,023</b>	<b>99.1</b>	<b>20,698,472</b>	<b>99.5</b>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value US\$	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) US\$
As at 30 September 2022	15,953,484	S&P / ASX 300 Index Total	1.04	-18.1	(3,003,084)
As at 30 September 2021	20,810,213	S&P / ASX 300 Index Total	1.06	+31.9	7,036,765

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.

\*\* Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.

\*\*\* % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.

\*\*\*\* Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2022 Less than 1 month US\$	2021 Less than 1 month US\$
Cash at banks	132,976	103,049
Total interest sensitivity gap	<u>132,976</u>	<u>103,049</u>

Any cash and cash equivalents are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

(iii) Currency risk

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	US\$ equivalent	% of reasonable possible change against US\$ (Note**)	Estimated impact on net asset value US\$
<u>2022</u>			
Australian Dollar	15,934,498	-11.0	(1,752,795)
Hong Kong Dollar	3,226	-0.8	(26)
	<u>15,937,724</u>		<u>(1,752,821)</u>
<u>2021</u>			
Australian Dollar	20,836,458	+0.8	166,692
Hong Kong Dollar	2,233	-0.4	(9)
	<u>20,838,691</u>		<u>166,683</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

\*\* % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

**(b) Credit risk**

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2022 and 2021 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodian which the Fund has placed the financial assets as at 30 September.

	2022 Exposure to counterparties US\$	2021 Exposure to counterparties US\$
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	30,782	19,178
S&P(A)/Moody's(A)/FITCH(A)	102,194	83,871
Investment and derivative balances with custodian		
S&P(A)/Moody's(A)/FITCH(A)	<u>15,809,023</u>	<u>20,698,472</u>

**(c) Liquidity risk**

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2022 Less than 1 month US\$	2021 Less than 1 month US\$
Amounts due to brokers	-	1,061,402
Amounts payable on redemption	14,676	16,924
Other accounts payable	42,285	42,721
Net assets attributable to holders of redeemable units	15,953,484	20,810,213
Total financial liabilities	<u>16,010,445</u>	<u>21,931,260</u>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

**(II) Capital risk management**

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

**(III) Fair value estimation**

As at 30 September 2022 and 2021, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
<u>2022</u>				
<u>Assets</u>				
Equities	15,808,728	-	-	15,808,728
Derivatives	-	295	-	295
Total financial assets at fair value through profit and loss	<u>15,808,728</u>	<u>295</u>	<u>-</u>	<u>15,809,023</u>
<u>2021</u>				
<u>Assets</u>				
Equities	20,696,387	-	-	20,696,387
Derivatives	2,085	-	-	2,085
Total financial assets at fair value through profit and loss	<u>20,698,472</u>	<u>-</u>	<u>-</u>	<u>20,698,472</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently.

There were no transfers between levels for the years ended 30 September 2022 and 2021.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2022 and 2021.

## 5 Net (losses)/gains on investments and derivatives

	2022 US\$	2021 US\$
Change in unrealized gains/losses in value of investments and derivatives	(4,988,570)	2,452,583
Realized gains on sale of investments and derivatives	491,297	2,359,345
	<u>(4,497,273)</u>	<u>4,811,928</u>

## 6 Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

Overseas tax was withheld or paid on certain dividend income received during the years ended 30 September 2022 and 2021.

## 7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments US\$	% of the Fund's total aggregate value of transactions	Commission paid US\$	% of the Fund's total commission paid in the year	Average commission rate %
<u>2022</u>					
The Hongkong and Shanghai Banking Corporation Limited	12,404	0.14	4	0.14	0.03
<u>2021</u>					
The Hongkong and Shanghai Banking Corporation Limited	99,369	0.53	30	0.52	0.03

(b) Balances with the Manager and its Connected Persons as at year end:

	2022 US\$	2021 US\$
Cash at banks	30,782	19,178
Amounts payable	<u>(20,024)</u>	<u>(23,628)</u>

- (c) During the year ended 30 September 2022, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to US\$484 (2021: US\$2,234).
- (d) Management fee of 0.75% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of US\$40 per valuation if the Fund's net asset value is larger than US\$5 million but smaller than US\$20 million, or US\$70 per valuation if the Fund's net asset value is larger than US\$20 million.

- (e) The Fund has a securities lender's agreement with J.P. Morgan Securities plc, a Connected Person of the Manager. However, the Fund does not intend to carry out any securities lending transactions. The arrangement is mainly intended to allow the Fund to carry out securities borrowing transactions.
- (f) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain members of the Manager's group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Total allotments	Total redemptions	At the end of the year	Profits from transaction US\$
<u>2022</u>					
<u>JPMorgan Asset Management Real Assets (Asia) Limited</u>					
- USD Class (acc)	236.421	-	(236.421)	-	1,376
<u>JPMorgan Asset Management (Asia Pacific) Limited</u>					
- USD Class (acc)	-	825.551	-	825.551	-
<u>2021</u>					
<u>JPMorgan Asset Management Real Assets (Asia) Limited</u>					
- USD Class (acc)	472.841	-	(236.420)	236.421	1,501

- (g) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first US\$40 million, 0.04% per annum for the balance from US\$40 million to US\$70 million, and 0.025% per annum for the balance in excess of US\$70 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.
- (h) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (i) During the years ended 30 September 2022 and 2021, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(h), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2022 US\$	2021 US\$
Interest on deposits	25	5
Transaction costs	(8,428)	-
Safe custody and bank charges	(7,040)	(4,863)
	<u>(7,443)</u>	<u>(4,858)</u>

- (j) During the years ended 30 September 2022 and 2021, in addition to the trustee's fee as disclosed in Note 7(g), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2022	2021
	US\$	US\$
Interest on deposits	63	-
Other operating expenses	-	(148)
Transaction costs	(4)	(13,610)
Interest expense	(110)	(17)
Safe custody and bank charges	(10,303)	(8,414)
	<u>(10,354)</u>	<u>(8,589)</u>

## 8 Borrowings

During the years ended 30 September 2022 and 2021, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

## 9 Soft dollar arrangements/Commission sharing arrangements

During the years ended 30 September 2022 and 2021, the Investment Manager and its Connected Persons did not enter into any soft dollar arrangements/commission sharing arrangements in connection with directing transactions of the Fund through a broker or dealer.

## 10 Derivatives

- (a) Details of rights as at 30 September were as follows:

	Underlying assets	Issuer	Fair value US\$
<u>2022</u>

No distribution was made during the year (2021: nil).

**Independent Auditor's Report**

To the Unitholders of JPMorgan Australia Fund (the "Fund")

**Report on the Audit of the Financial Statements****Opinion**

What we have audited

The financial statements of JPMorgan Australia Fund, which are set out on pages 177 to 189, comprise:

- the Statement of Financial Position as at 30 September 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2022, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

**Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Other Information**

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Management for the Financial Statements**

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 5 June 1981, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

**Independent Auditor's Report** (Continued)

To the Unitholders of JPMorgan Australia Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the  
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure  
Provisions of the Trust Deed and Appendix E of the  
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers  
Certified Public Accountants

Hong Kong, 20 January 2023

**Statement of Responsibilities of the Manager and the Trustee****Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

**Trustee's Responsibilities**

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

**Report of the Trustee to the Unitholders**

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 5 June 1981, as amended, for the year ended 30 September 2022.

HSBC Institutional Trust Services (Asia) Limited, Trustee

**UK Tax Information**

The Fund is transparent for UK income tax purposes and information has been provided to UK investors of the amount of their share of the underlying income, expenses and overseas tax suffered for all financial years from 1 October 2010. Although the Fund is an "offshore fund" for UK tax purposes, there is no need to formally apply for "reporting fund status" as the Fund is considered transparent by HMRC and does not invest more than 5% of its assets in other offshore funds which are not themselves reporting funds. Therefore it is known as a "special category transparent offshore fund" and considered out of scope of the requirements of the offshore fund regime. The principal effect of this is that for unitholders resident in the UK for taxation purposes, any gains accruing on the sale, redemption or other disposal of units during the period will be taxed in the UK as a capital gain and not as income. The Fund has previously been certified by HMRC in the UK as a "distributing fund" in respect of the period from 1 January 1984 to 30 September 2010.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan China A-Share Opportunities Fund (the "Fund") was established under a Trust Deed dated 2 July 2014, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("SFC").

The investment objective of the Fund is to aim to achieve long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in equity securities issued in the PRC including but not limited to China A-Shares listed on the PRC stock exchanges (e.g. Shanghai Stock Exchange, Shenzhen Stock Exchange and Beijing Stock Exchange). The Fund will invest in PRC securities via the Qualified Foreign Investor ("QFI") status of the Investment Manager. For the investment in China A-Shares, the Fund may also invest and have direct access to certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (collectively, the "China Connect") and/or other similar programs as approved by the relevant regulators from time to time. The Fund may invest 30% or more of its total net asset value in stocks listed on the ChiNext Board of the Shenzhen Stock Exchange, the Science and Technology Innovation Board of the Shanghai Stock Exchange and/or the Beijing Stock Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

##### *Standards and amendments to existing standards effective from 1 October 2021*

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2021 that have had a material impact on the Fund.

##### *New standards, amendments and interpretations effective after 1 October 2021 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

*Transfers between levels of the fair value hierarchy*

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

**(c) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

**(d) Income and expense**

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

**(e) Transaction costs**

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**(f) Foreign currency translation***Functional and presentation currency*

The Fund has adopted Renminbi as its functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within "Net foreign currency exchange gains/losses". Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within "Net gains/losses on investments and derivatives".

**(g) Cash and cash equivalents**

For the purpose of the Statement of Cash Flows, cash and cash equivalents comprise cash at banks and bank deposits with maturity of three months or less from the date of placing the deposits, net of certain short-term bank loans which the Fund usually undertakes as overnight bank borrowings.

**(h) Collateral deposits**

Cash collateral provided by the Fund is identified in the Statement of Financial Position as collateral deposits and is not included as a component of cash and cash equivalents.

**(i) Amounts due from/to brokers**

Amounts due from/to brokers represent receivables for investments and derivatives sold and payables for investments and derivatives purchased that have been contracted for but not yet settled by the end of the year.

These amounts are recognized initially at fair value and subsequently measured at amortized cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization and default in payments are all considered indicators that a loss allowance may be required.

**(j) Proceeds and payments on allotment and redemption of units**

The net asset value per unit is computed for each dealing day. The price at which units are allotted or redeemed is calculated by reference to the net asset value per unit as at the close of business on the relevant dealing day in accordance with the provisions of the Trust Deed which may be different from the accounting policies stated in the financial statements.

Units of the Fund are redeemable at the option of the holders of redeemable units and are classified as a financial liability in the Statement of Financial Position which represents the net assets attributable to holders of redeemable units (or "net asset value" or "net assets" or "NAV") and is carried at the redemption amount that would be payable at the Statement of Financial Position date if the holders of redeemable units exercised the right to redeem units of the Fund.

**(k) Taxation**

Tax provision made predominantly relates to enterprise income tax arising from investment income realized from trading PRC securities.

Deferred income tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

**3 Number of units in issue and net assets attributable to holders of redeemable units (per unit)**2022

	HKD Class (acc) Units	RMB Class (acc) Units	USD Class (acc) Units

Net assets attributable to holders of redeemable units (per unit)	<u>27.58</u>	<u>28.84</u>	<u>21.58</u>

4 Financial risk management

(l) Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

(a) Market risk

(i) Market price risk

The Fund's investments and derivatives are subject to the market price risk inherent in all investments and derivatives i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through (i) deliberate stocks selection, and (ii) diversification of the investment portfolio in accordance with specific investment restrictions and guidelines.

The Investment Manager monitors the Fund's market price sensitivity primarily through the Beta of the Fund on a regular basis. Beta measures the statistical relationship between the return of the Fund and the relevant benchmark index chosen by the Investment Manager.

As at 30 September, the fair value of investments and derivatives and its estimated market sensitivity were as follows:

	2022		2021	
	Fair value of investments CNY	% of net assets	Fair value of investments CNY	% of net assets
Listed/Quoted Investments				
<u>Assets</u>				
Equities				
- Food Products	182,079,289	10.1	268,441,541	10.8
- Software	144,650,153	8.0	237,532,447	9.5
- Banks	128,317,987	7.1	189,959,641	7.6
- Semiconductors & Semiconductor Equipment	109,144,088	6.0	211,586,393	8.5
- Beverages	48,314,319	2.7	159,135,893	6.4
- Others	1,046,971,930	58.0	1,254,838,150	50.2
	<u>1,659,477,766</u>	<u>91.9</u>	<u>2,321,494,065</u>	<u>93.0</u>
<u>Derivatives</u>				
- Participation notes	105,362,336	5.8	120,660,004	4.8
- Warrants	49,039,439	2.7	53,816,596	2.2
	<u>154,401,775</u>	<u>8.5</u>	<u>174,476,600</u>	<u>7.0</u>
Total Listed/Quoted Investments	<u>1,813,879,541</u>	<u>100.4</u>	<u>2,495,970,665</u>	<u>100.0</u>

Also, refer to Note 10 for the exposures on derivatives.

	Net asset value CNY	Relevant benchmark index for the Fund (Note*)	Beta (Note**)	% of reasonable possible change of the relevant benchmark index (Note***)	Estimated impact on net asset value (Note****) CNY
As at 30 September 2022	<u>1,806,643,446</u>	CSI 300 Net	1.06	-20.3	<u>(388,753,537)</u>
As at 30 September 2021	<u>2,494,944,578</u>	CSI 300 Net	1.01	+7.8	<u>196,551,734</u>

If the relevant benchmark index return was to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

- \* Relevant benchmark index for the Fund represents the relevant market index used by the Investment Manager in monitoring the market price risk of the Fund.
- \*\* Beta measures the statistical relationship between the return of the Fund and the respective benchmark index over the maximum of past 36 months, or the number of months since portfolio inception. For funds launched within a period of less than 12 months, weekly returns of the Fund are used for calculating the Beta.
- \*\*\* % of reasonable possible change is based on the actual historical change in the benchmark index in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns. For funds launched within a period of less than 12 months, actual historical change in the benchmark index since the commencement of operations will be used to calculate the % of reasonable possible change.
- \*\*\*\* Estimated impact on net asset value of the Fund is calculated by applying the relevant Beta against the net asset value of the Fund multiplied by the % of reasonable possible change of the relevant benchmark index, assuming all other variables that may impact the net asset value of the Fund are held constant.

**(ii) Interest rate risk**

Interest rate risk is the risk that the value of a financial instrument or future cash flow will fluctuate due to changes in market interest rates.

The table below summarizes the Fund's financial assets and liabilities as at 30 September which expose it to the risk associated with the effects of fluctuations in the prevailing levels of market interest rates, categorized by remaining maturity dates.

	2022 Less than 1 month CNY	2021 Less than 1 month CNY
Cash at banks	26,312,419	19,634,408
Collateral deposits	-	126,537
Short-term bank loans - unsecured	(23,249,499)	(9,534,276)
	3,062,920	10,226,669
Total interest sensitivity gap	3,062,920	10,226,669

Any cash and cash equivalents and collateral deposits are placed/borrowed at short-term market interest rates and the Investment Manager considers that the Fund is not subject to significant amount of risk due to the stable and low fluctuation in the prevailing levels of market interest rates.

**(iii) Currency risk**

The Fund holds assets and liabilities denominated in a number of currencies. HKFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not currency risk. However, the Investment Manager monitors the exposure to currency risk on all foreign currency denominated assets and liabilities including both monetary and non-monetary assets and liabilities.

The table below summarizes the Fund's exposure to currency risk as at 30 September together with the percentage of reasonable possible change in foreign currencies and the estimated impact on net asset value of the Fund.

	CNY equivalent	% of reasonable possible change against CNY (Note**)	Estimated impact on net asset value CNY
Net currency exposures (Note*)			
<u>2022</u>			
Hong Kong Dollar	86,365,561	+9.5	8,204,728
United States Dollar	153,863,665	+10.5	16,155,685
	240,229,226		24,360,413
	240,229,226		24,360,413

	CNY equivalent	% of reasonable possible change against CNY (Note**)	Estimated impact on net asset value CNY
Net currency exposures (Note*)			
<u>2021</u>			
Hong Kong Dollar	201,680,456	-5.3	(10,689,064)
United States Dollar	170,622,311	-4.9	(8,360,493)
	<u>372,302,767</u>		<u>(19,049,557)</u>

If the foreign currency fluctuations were to move in the opposite direction, this would result in an opposite movement in the net asset value of the Fund by the same amount, assuming all other variables that may impact the net asset value of the Fund are held constant.

Note:

\* Net currency exposures on assets and liabilities include both monetary and non-monetary assets and liabilities.

\*\* % of reasonable possible change is based on the actual historical change in the respective currencies against the functional currency of the Fund in the past 12 months and does not include remote or "worst case" scenarios or "stress tests" nor represent the Investment Manager's forecast of the Fund's future returns.

**(b) Credit risk**

Credit risk is the risk that a counterparty will not be able to pay amounts in full when due.

The Manager monitors credit risk with reference to a number of factors including history of default and the credit rating of counterparties. The Manager considers the credit risk of other receivables such as amounts receivable on allotment, amounts due from brokers or dividend and other accounts receivable, to be insignificant as the Fund has no default history on such receivables in the past 5 years. Overall, the Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the Fund's counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses.

The maximum exposure to credit risk as at 30 September 2022 and 2021 is the carrying amount of the financial assets as shown in the Statement of Financial Position.

All transactions in investments and derivatives are settled on a delivery versus payment basis using approved brokers. The risk of default is considered minimal, as delivery of investments and derivatives sold is only made when the Fund's custodian bank has received payment. For a purchase, payment is made once the investments and derivatives have been received by the Fund's custodian bank. The trade will fail if either party fails to meet the obligation.

The table below summarizes the credit rating of the banks/custodians which the Fund has placed the financial assets as at 30 September.

	2022 Exposure to counterparties CNY	2021 Exposure to counterparties CNY
Bank balances		
S&P(AA)/Moody's(Aa)/FITCH(AA)	998,015	311,611
S&P(A)/Moody's(A)/FITCH(A)	25,314,404	19,322,797
Collateral deposits with custodian		
S&P(A)/Moody's(A)/FITCH(A)	-	126,537
Investment and derivative balances with custodians		
S&P(A)/Moody's(A)/FITCH(A)	<u>1,813,879,541</u>	<u>2,495,970,665</u>

**(c) Liquidity risk**

The Fund is exposed to daily redemption of units, the majority of its assets in investments are traded in an active market which can be readily disposed of. The Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.

The Fund has the ability to enter into borrowing arrangements subject to the investment restrictions and guidelines.

The table below summarizes the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at 30 September to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	2022 Less than 1 month CNY	2021 Less than 1 month CNY
Short-term bank loans - unsecured	23,249,499	9,534,276
Amounts due to brokers	2,087,125	8,244,617
Amounts payable on redemption	5,964,004	4,599,523
Other accounts payable	3,222,488	4,110,601
Net assets attributable to holders of redeemable units	1,806,643,446	2,494,944,578
<b>Total financial liabilities</b>	<b>1,841,166,562</b>	<b>2,521,433,595</b>

The Investment Manager manages the Fund's liquidity risk by investing in investments that the Investment Manager expects to liquidate normally within 1 month and making short-term bank borrowing to meet the total financial liabilities.

**(II) Capital risk management**

The capital of the Fund is represented by the net assets attributable to holders of redeemable units which is subject to allotments and redemptions of redeemable units. The Fund's objective for capital management is to provide returns and long-term capital growth for unitholders.

In order to maintain the capital structure, the Management performs the following:

- Monitor allotment and redemption activities relative to the liquid assets.
- To protect the interest of unitholders and in exceptional circumstances, the Manager may also limit the total number of units redeemed for the Fund on any dealing day to 10% or more of the units in issue on any dealing day.
- Monitor fund investment guidelines and restrictions, in accordance with the constitutional documents, to maintain sufficient liquidity through diversification.

**(III) Fair value estimation**

As at 30 September 2022 and 2021, the Management considers that the carrying values of assets and liabilities were reasonable approximations of their fair value.

HKFRS 13 requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The table below summarizes the Fund's investments and derivatives (by class) within the fair value hierarchy measured at fair value as at 30 September:

Listed/Quoted Investments	Level 1 CNY	Level 2 CNY	Level 3 CNY	Total CNY
<u>2022</u>				
<u>Assets</u>				
Equities	1,659,477,766	-	-	1,659,477,766
Derivatives	-	154,401,775	-	154,401,775
Total financial assets at fair value through profit and loss	<u>1,659,477,766</u>	<u>154,401,775</u>	<u>-</u>	<u>1,813,879,541</u>
<u>2021</u>				
<u>Assets</u>				
Equities	2,321,494,065	-	-	2,321,494,065
Derivatives	-	174,476,600	-	174,476,600
Total financial assets at fair value through profit and loss	<u>2,321,494,065</u>	<u>174,476,600</u>	<u>-</u>	<u>2,495,970,665</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer/broker quotations or alternative pricing sources supported by observable inputs are classified within level 2.

Level 3 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

There were no transfers between levels for the years ended 30 September 2022 and 2021.

For assets and liabilities carried at amortized cost, their carrying values are a reasonable approximation of fair value as at 30 September 2022 and 2021.

## 5 Net (losses)/gains on investments and derivatives

	2022 CNY	2021 CNY
Change in unrealized gains/losses in value of investments and derivatives	(589,640,158)	(77,757,113)
Realized gains on sale of investments and derivatives	3,668,623	166,496,545
	<u>(585,971,535)</u>	<u>88,739,432</u>

**6 Taxation**

Tax provision made predominantly relates to enterprise income tax arising from investment income realized from trading PRC securities.

The amount of taxation charged to the Statement of Comprehensive Income represents:

	2022 CNY	2021 CNY
Withholding tax		
- Dividend and interest income	(2,951,831)	(2,802,746)
Taxation	<u>(2,951,831)</u>	<u>(2,802,746)</u>

The movement in tax payable during the year is as follows:

	2022 CNY	2021 CNY
At the beginning of the year	-	-
Taxation charged to the Statement of Comprehensive Income	2,951,831	2,802,746
Tax paid	<u>(2,951,831)</u>	<u>(2,802,746)</u>
At the end of the year	<u>-</u>	<u>-</u>

Provisioning Policy of the FundChina Taxation

The Fund held A-shares of PRC listed companies through the QFI status of the Investment Manager and China Connect and certain investment in other PRC securities. Under PRC tax law, enterprise income tax of 10% is payable on dividends and interests derived by foreign investors from China, except for Government bond interest which is specifically tax exempt and bond interest derived from 7 November 2018 to 31 December 2025 by foreign institutional investors from bonds traded in PRC local bond market which is temporarily exempt. The paying entity in the PRC will be responsible for withholding such tax when making a payment. Full PRC tax provision of 10% is made for PRC sourced dividends and interests not subject to specific tax exemption where tax has not yet been withheld by the payors.

Under PRC tax law, enterprise income tax of 10% would normally be payable on gains realized from the sale of PRC securities by foreign investors. However, currently gains from disposal of China A-shares (including those on China Connect) are subject to temporary exemptions from enterprise income tax. Full PRC tax provision of 10% is made for gains from disposal of certain PRC securities that are currently not specifically exempt from enterprise income tax.

Hong Kong Taxation

No provision for Hong Kong profits tax has been made as the Fund was authorized as a collective investment scheme under Section 104 of the Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Inland Revenue Ordinance.

7 Transactions with the Trustee, the Manager and their Connected Persons

The following is a summary of significant related party transactions entered into during the year between the Fund and the Trustee, the Manager and their Connected Persons. Connected Persons of the Trustee and the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the SFC. All such transactions were entered into in the ordinary course of business and were on normal commercial terms.

(a) Investment transactions with Connected Persons of the Trustee and the Manager are set out below:

Name of company	Aggregate value of purchases and sales of investments CNY	% of the Fund's total aggregate value of transactions	Commission paid CNY	% of the Fund's total commission paid in the year	Average commission rate %
<u>2022</u>					
J.P. Morgan Securities plc	228,562,888	8.41	-	-	-
J.P. Morgan Securities (Asia Pacific) Limited The Hongkong and Shanghai Banking Corporation Limited	165,792,878 246,189,681	6.10 9.06	175,832 213,459	6.99 8.49	0.11 0.09
<u>2021</u>					
J.P. Morgan Securities plc	196,130,723	5.89	-	-	-
J.P. Morgan Securities (Asia Pacific) Limited The Hongkong and Shanghai Banking Corporation Limited	250,659,980 353,662,652	7.52 10.61	255,148 348,821	7.45 10.18	0.10 0.10

As at 30 September 2022, the Fund had an investment of CNY85,722,218 (2021: CNY76,872,630) in participation notes issued by J.P. Morgan Structured Products B.V., a Connected Person of the Manager.

During the year ended 30 September 2022, the Fund received dividend income of CNY710,380 (2021: CNY198,218) from its investments in participation notes issued by J.P. Morgan Structured Products B.V.. The aggregate value of purchases and sales of investments in participation notes issued by J.P. Morgan Structured Products B.V. were CNY228,562,888 (2021: CNY196,130,723).

(b) Balances with the Manager and its Connected Persons as at year end:

	2022 CNY	2021 CNY
Cash at banks	998,015	311,611
Amounts receivable	24	9
Amounts payable	(2,864,876)	(3,738,556)

(c) During the year ended 30 September 2022, the income accruing to the Manager relating to allotments and redemptions in the Fund, net of commission paid to agents, amounted to CNY35,619 (2021: CNY156,406).

(d) Management fee of 1.75% per annum of the net asset value of the Fund is paid to JPMorgan Funds (Asia) Limited. Management fee is accrued on each dealing day and is payable monthly in arrears.

The Manager also receives a valuation fee of US\$40 per valuation if the Fund's net asset value is larger than US\$5 million but smaller than US\$20 million, or US\$70 per valuation if the Fund's net asset value is larger than US\$20 million.

(e) The Fund allows the Trustee, the Manager and their Connected Persons to subscribe for, and redeem, units of the Fund.

Certain Directors of the Manager and members of its group of companies held units of the Fund during the year and were entitled to profits from transaction in units of the Fund as follows:

	At the beginning of the year	Increase resulting from director appointments during the year	Total allotments	Total redemptions	Decrease resulting from director resignations during the year	At the end of the year	Profits from transaction CNY
<u>2022</u>							
<u>Directors of the Manager</u>							
- HKD Class (acc)	16,051.719	-	57,896.507	-	-	73,948.226	-

- USD Class (acc)	2,150.896	N/A	-	(1,075.448)	N/A	1,075.448	100,263

(f) Trustee's fee of 0.06% per annum of the net asset value of the Fund for the first CNY270 million, 0.04% per annum for the balance from CNY270 million to CNY470 million, and 0.025% per annum for the balance in excess of CNY470 million is paid to the Trustee. Trustee's fee is accrued on each dealing day and is payable monthly in arrears.

- (g) JPMorgan Funds (Asia) Limited, the registrar agent and Manager, receives a registrar's fee which varies depending on the number of unitholders in the Fund and the number of transactions which occur. The range agreed with the Trustee is between 0.015% and 0.5% per annum of the Fund's net asset value. The registrar's fee is payable quarterly in arrears.
- (h) During the years ended 30 September 2022 and 2021, in addition to the management fee, valuation fee and registrar's fee as disclosed in Note 7(d) and 7(g), respective amounts received from/(paid to) the Manager, JPMorgan Funds (Asia) Limited, and its Connected Persons were as follows:

	2022	2021
	CNY	CNY
Interest on deposits	3,644	26,375
Safe custody and bank charges	(30,213)	(16,435)

	<u>(172,399)</u>	<u>(245,208)</u>

- (i) During the years ended 30 September 2022 and 2021, in addition to the trustee's fee as disclosed in Note 7(f), respective amounts received from/(paid to) the Trustee, HSBC Institutional Trust Services (Asia) Limited, and its Connected Persons were as follows:

	2022	2021
	CNY	CNY
Interest on deposits	5,384	8,775
Other operating expenses	-	(953)
Interest expense	(139,088)	(126,890)
Transaction costs	(409,887)	(713,165)
Safe custody and bank charges	(840,602)	(1,099,855)
	<u>(1,384,293)</u>	<u>(2,022,138)</u>

## 8 Borrowings

During the year ended 30 September 2022, the Fund has unsecured short-term bank borrowings with The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. During the year ended 30 September 2021, the Fund has unsecured short-term bank borrowings with different financial institutions, one of which is The Hongkong and Shanghai Banking Corporation Limited, a Connected Person of the Trustee. All bank borrowings have a duration of less than 7 days. All such transactions are entered into in the ordinary course of business and on normal commercial terms.

## 9 Soft dollar arrangements/Commission sharing arrangements

The Investment Manager has entered into soft dollar arrangements/commission sharing arrangements with brokers under which certain goods and services used to support investment decision making are received by the Investment Manager. A portion of the transaction commission paid by the Fund is retained by the brokers as compensation for the goods and services.

The goods and services must be of demonstrable benefit to the Fund and would be limited to research and advisory services.

During the year ended 30 September 2022, the Investment Manager obtained the services through soft dollar arrangements/commission sharing arrangements on transactions amounting to CNY733,959,483 (2021: CNY118,063,329). Commission which amounted to CNY11,100 (2021: CNY27,237) is paid from the Fund on these transactions.

## 11 Distribution

No distribution was made during the year (2021: nil).

**Independent Auditor's Report**

To the Unitholders of JPMorgan China A-Share Opportunities Fund (the "Fund")

**Report on the Audit of the Financial Statements****Opinion**

What we have audited

The financial statements of JPMorgan China A-Share Opportunities Fund, which are set out on pages 200 to 218, comprise:

- the Statement of Financial Position as at 30 September 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units for the year then ended;
- the Statement of Cash Flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Fund as at 30 September 2022, and of its financial transactions and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

**Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Independence**

We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Other Information**

The Trustee and the Manager (the "Management") of the Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Management for the Financial Statements**

The Management of the Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 2 July 2014, as amended (the "Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

**Independent Auditor's Report** (Continued)

To the Unitholders of JPMorgan China A-Share Opportunities Fund (the "Fund")

**Auditor's Responsibilities for the Audit of the  
Financial Statements** (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on Matters under the Relevant Disclosure  
Provisions of the Trust Deed and Appendix E of the  
SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

PricewaterhouseCoopers  
Certified Public Accountants

Hong Kong, 20 January 2023

**Statement of Responsibilities of the Manager and the Trustee**

**Manager's Responsibilities**

The Manager of the Fund is required by the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong and the Trust Deed to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund at the end of that period and of the transactions for the period then ended. In preparing these financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

**Trustee's Responsibilities**

The Trustee of the Fund is required to:

- ensure that the Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Fund and rights attaching thereto (as far as reasonably practicable); and
- report to the unitholders for each annual accounting period should the Manager not manage the Fund in accordance with the Trust Deed.

**Report of the Trustee to the Unitholders**

We hereby confirm that, in our opinion, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 2 July 2014, as amended, for the year ended 30 September 2022.

**Details of Financial Derivative Instruments  
As at 30 September 2022 (Unaudited)**

**(a) Forward foreign exchange contracts**

As at 30 September 2022, the Fund held outstanding forward foreign exchange contracts with details as shown in Note 11.

**(b) Futures**

As at 30 September 2022, the Fund held futures contracts with details as shown in Note 11.

**Information on Exposure Arising from Financial  
Derivative Instruments  
For the year ended 30 September 2022 (Unaudited)**

The lowest, highest and average gross exposure arising from the use of financial derivative instruments in the Fund for any purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2022.

	<b>2022 % of NAV</b>
Lowest gross exposure	3.8
Highest gross exposure	28.6
Average gross exposure	11.9

The lowest, highest and average net exposure arising from the use of financial derivative instruments in the Fund for non-hedging purpose as a proportion to the Fund's total net asset value for the year ended 30 September 2022.

	<b>2022 % of NAV</b>
Lowest net exposure	2.8
Highest net exposure	6.8
Average net exposure	4.8

<sup>#</sup> There are some share classes with currency hedging features. For the avoidance of doubt, their exposures are not included in the calculation of the gross exposure of the Fund portfolio.

## Notes to the Financial Statements

### 1 The Fund

JPMorgan China Income Fund (the "Fund") was established under a Trust Deed dated 21 May 2009, as amended (the "Trust Deed") and is governed by the laws of Hong Kong. The Fund is authorized by the Securities and Futures Commission of Hong Kong ("SFC").

The investment objective of the Fund is to provide investors with income and long-term capital growth by investing primarily (i.e. at least 70% of its total net asset value) in (a) equity securities of companies which are based in, listed on any stock exchange of, or operate principally in the PRC and that the Investment Manager expects to pay dividends and (b) Chinese debt securities issued and/or distributed in or outside the PRC. The Fund may invest up to 50% of its total net asset value in onshore PRC securities via the Qualified Foreign Investor ("QFI") status of the Investment Manager. The Fund may invest up to 100% of its total net asset value in certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect (collectively, the "China Connect") and/or other similar programs as approved by the relevant regulators from time to time. The Fund may invest 30% or more of its total net asset value in stocks listed on the ChiNext Board of the Shenzhen Stock Exchange, the Science and Technology Innovation Board of the Shanghai Stock Exchange and/or the Beijing Stock Exchange.

Pursuant to the Trust Deed, the Manager may decide to issue separate classes (each a "Class") whose assets will be commonly invested but where a specific fee structure, currency or distribution policy may be applied. Each Class may have a different charging structure with the result that the net asset value attributable to each Class may differ.

All unitholders' rights with regard to the convening, voting or otherwise acting at any meeting of unitholders are the same.

### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation of financial statements

The financial statements of the Fund have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Manager and the Trustee (the "Management") to exercise their judgment in the process of applying the Fund's accounting policies.

##### *Standards and amendments to existing standards effective from 1 October 2021*

There are no standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 October 2021 that have had a material impact on the Fund.

##### *New standards, amendments and interpretations effective after 1 October 2021 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

#### (b) Investments and derivatives

##### *Classification*

The Fund classifies its investments and derivatives based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

*Recognition, derecognition and measurement*

Purchases and sales of investments and derivatives are accounted for on the trade date basis. Investments and derivatives are initially recognized at fair value and are subsequently re-measured at fair value. Realized and unrealized gains and losses on investments and derivatives are recognized in the Statement of Comprehensive Income. Investments and derivatives are derecognized when the rights to receive cash flows from the investments and derivatives have expired or the Fund has transferred substantially all risks and rewards of ownership.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on last traded prices. When trading in the securities of an investee company is suspended, the investment is valued at the Manager's estimate of its fair value.

Debt securities are fair valued based on quoted prices inclusive of accrued interest.

Open futures contracts are valued at last traded prices for both long and short positions at the valuation date. The differences between the last traded prices and the contract prices are recognized in the Statement of Comprehensive Income.

Forward foreign exchange contracts are valued at the forward rates ruling at the valuation date. The differences between the forward rates and the contract rates are recognized in the Statement of Comprehensive Income.

*Transfers between levels of the fair value hierarchy*

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

**(c) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

**(d) Income and expense**

Dividend income is recognized on the ex-dividend date with the corresponding foreign withholding tax recorded as an expense and is accounted for in the Statement of Comprehensive Income.

Interest income on investments is accounted for as part of net gains/losses on investments and derivatives in the Statement of Comprehensive Income.

Interest income on cash at banks and short-term deposits is accounted for in the Statement of Comprehensive Income on an effective interest basis.

Expenses are accounted for in the Statement of Comprehensive Income on an accrual basis.

**(e) Transaction costs**

Transaction costs are costs incurred to acquire/dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**(f) Foreign currency translation***Functional and presentation currency*

The Fund has adopted United States dollar as its functional and presentation currency.

*Transactions and balances*
