Allianz Global Investors Fund  
AT / A

- The Fund is exposed to significant risks of investment/general market, country and region, European country and company-specific, and the adverse impact on RMB share classes due to currency depreciation. The economic and financial difficulties in Europe may get worse and thus may adversely affect the Fund (such as increased volatility, liquidity and currency risks associated with investments in Europe).
- The Fund is exposed to sustainable investment risks relating to KPI Strategy (Absolute) (such as foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, selling securities when it might be disadvantageous to do so, and/or reducing risk diversifications compared to broadly based funds) which may result in the Fund being more volatile and have adverse impact on the performance of the Fund and consequently adversely affect an investor's investment in the Fund.
- The Fund may invest in financial derivative instruments ("FDI") which may expose to higher leverage, counterparty, liquidity, valuation, volatility, market and over the counter transaction risks. The Fund's net derivative exposure may be up to 50% of the Fund's net asset value.
- This investment may involve risks that could result in loss of part or entire amount of investors' investment.
- In making investment decisions, investors should not rely solely on this material.
- **Note:** Dividend payments may, at the sole discretion of the Investment Manager, be made out of the Fund's capital or effectively out of the Fund's capital which represents a return or withdrawal of part of the amount investors originally invested and/or capital gains attributable to the original investment. This may result in an immediate decrease in the NAV per share and the capital of the Fund available for investment in the future and capital growth may be reduced, in particular for hedged share classes for which the distribution amount and NAV of any hedged share classes (HSC) may be adversely affected by differences in the interests rates of the reference currency of the HSC and the base currency of the Fund.

## Investment Objective

The Fund aims at long-term capital growth by investing in companies of European equity markets that are expected to achieve sustainable dividend returns in accordance with the Sustainability Key Performance Indicator Strategy (Absolute) ("KPI Strategy (Absolute)"). The Fund does not constitute as an ESG fund pursuant to the SFC's circular issued on 29 June 2021.
