Schroder Asian Asset Income Fund

A Accumulation HKD | Data as at 31.03.2024

Important Information

The fund invests primarily in Asian (including countries in Asia-Pacific) equities and fixed income securities.

1. The fund invests in equity securities would subject to equity investment risk.
 2. The fund's investment in fixed income securities may be subject to credit and counterparty, credit rating risk, etc.. The fund investment in below investment grade and/or unrated debt securities may be subject to higher degree of the above risks.
 3. The fund's investment in emerging and less developed markets may be subject to significant risks such as ownership and custody risks, political and economic risks, market and settlement risks, etc.
 4. The fund may invest into investments denominated in currencies other than the fund's base currency and subject to currency and exchange risk. If the investor's based currency is a different currency than the share class's currency being invested in, the investor needs to carry out conversion and would involve conversion costs. The net asset value of the fund may be adversely affected by changes in foreign exchange rates and exchange rate control.
 5. The fund may be subject to risks similar to those associated with the direct ownership of real property through its investment in REITs. REITs are dependent upon management skills and generally may not be diversified. The REITs invested in by the fund may not be necessarily be authorized by the SFC and the distribution policy of the fund may not reflect the dividend policy of the underlying REITs.
 6. The fund may invest in derivatives for hedging purposes. In adverse situations, the fund's use of derivatives may become ineffective in hedging and the fund may suffer significant losses. Risks associated with derivatives include counterparty risk, credit risk and liquidity risk. Such exposure may lead to a high risk of capital loss.
 7. For distribution share classes/units, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the fund. Distributions maybe paid out of the capital of the fund at the Manager's discretion. This amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the net asset value per share or decrease in the value of units of the relevant Distribution Units.
- You should not make any investment decision solely based on this document. Please read the relevant offering document carefully for further fund details including risk factors.

Investment Objectives

The fund's investment objective is to provide income and capital growth over the medium to longer term by investing primarily in Asian (including countries in Asia-Pacific) equities and Asian fixed income securities.

Risk statistics & financial ratios

	Fund
Annual volatility (%) (3y)	10.0
Sharpe ratio (3y)	-0.5

Source: Morningstar. The above ratios are based on NAV to NAV price based performance data.

Past Performance is not a guide to future performance and may not be repeated.
The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated NAV to NAV (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

Percentages of allocation may not sum up to 100% due to rounding issue. ^Includes a small amount of indirect investment in mainland China. The total amount of Equities and Fixed Income securities stated in the Geographical Breakdown and Sector tables may differ due to rounding adjustments. The total holding of 100% can be derived by adding Equities, Fixed Income, Global Ex Asia Allocation along with Cash & Cash Equivalents. The "Others" asset type may include equity and fixed income futures, if held by the fund.
