Fidelity Funds - Asian Bond Fund 富達基金-亞洲債券基金

31 March 2024 年3月31日

- This fund invests primarily in investment grade Asian bonds.
 The fund is subject to risk to capital and income, foreign currency risk, risks of investing in emerging market, Chinese Renninbi currency and conversion risk, risk of RMB hedged share class and risks associated with debt securities, including Credit / Counterparty, Interest Rate, Downgrading, Valuation and Credit Rating Risk. Although the fund will generally invest in income-producing securities, it is not guaranteed that all underlying investments will generate income. Higher yields generally mean that there will be increased potential for capital appreciation and / or depreciation for fixed income securities.
 The fund may invest in instruments with loss-absorption features which are subject to greater capital risks, liquidity, valuation and sector concentration risk. The fund may invest in CoCos, which are highly complex and are of high risk. CoCos are a form of hybrid debt security with loss-absorption features that are intended to either convent into equity shares of the issuer or have their principal written down upon the occurrence of certain 'triggers'. The fund may also invest in senior non-preferred debts, which may be subject to write-down upon the occurrence of a trigger event and may result in total loss of principal invested.
 The fund's net derivative exposure may be up to 50% of its NAV, the use of derivatives may involve liquidity risk, counterparty credit risk, volatility risk, valuations risks and over-the-counter transaction risk, at times. Exposure to financial derivative instruments and its leverage element may lead to a high risk of significant loss by the fund.
 For dividend of certain share classes, payment of dividends out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment. Any such distributions may result in an immediate reduction of the NAV per share/ unit. For the hedged share class, the distribution amount and NAV of such shore class may b
- Investors may suffer substantial loss of their investments in the fund. Investor should not invest in the fund solel based on the information provided in this document and should read the offering documents, including Product Key Facts (including the risk factors) for details.
